I am a 14 year old girl who loves to write poems I often write love poems all the poems I write are based on real events in my life or how I feel I love writing poetry and I would not change a thing about what I do I hope to turn my poems into something I have the most amazing best friend in the world who I am so thankful for and I love her to death I love you Shells

Falling In Love With You Again

Now and then everything seems so perfect
Life seems to set you free as you let go of all your misery
The tears you cry it is okay to leave behind all the pain
and yet there is much to gain as you dream of everything
and yet as you go on you feel like giving up on yourself
and you hope she understands what goes on in your head
Whats right and wrong how you have to display your love in this song

I will love you like there is no tomorrow hug you and never let go I will show you
everything and words will go to show

Today will be the day I will fall in love with you over and over again nothing will
change the way I feel and you know just like I do the way I feel don't give up on
us don't give up on the way you feel don't give up on me I will show you what we
are meant to be

Hand in Hand time after time over and over again singing this line I love you
more then you know and everyday I will go out of my way to show you the love I
have and nothing will change it the love I have no one can take it I love you till
the day you die I love you till the moon falls from the sky and I love you more
then you will ever know and I love you more then my words can go to show

Everything we had can never be replace but who's to say my feeling for you will
ever be erased nothing will ever change the way I feel about you you need to
know just how I feel and little do you know this love is real there is nothing in
this world that can ever replace what we had no one will ever take your place I
will love you till the day you die I will go with you up to the sky and I will be your
leader your angel to as long as you let me love you

Not a single word not a single sound can change the way my world goes round
not a single movement not a single sound can change the way my world goes
round all the feeling I have felt for you everything you wanted me too and yet
something inside of me tells me to let go and set you free but I don't want to I
can't move on all that I feel for you will never go away I won't let you go not
even a single word can tell you the way I feel for you and let you know I love you
too

Little do you know I'm standing here folding my hands in prayer begging God to

set me free guide me out of my misery everything I did I did for you and everything I said I said for you and yet I realized what I did was wrong the way I treated you was so wrong and now I know I can't take it back all I can say is I'm sorry for that and hope that you forgive me and lets us just start free everything I've hoped for will come true because I will never stop loving you and I hope you know not a word can tell not a picture can show the way I feel for you I will never ever let you go

everything we have gone through together me and you I know you are the one for me not even all the words on earth can tell you how I feel and every time I try to tell you I run out of words as though my mind goes blank and only time will tell one day we will be together on that we can dwell you are like my little star I hold in my pocket you are like that great big balloon but when the wind pops it nothing ever goes away every single word I say it how I feel about you but I try to find a way a way to tell you

You are that shining star bright up in the sky you are like the great big moon wanted to shine your light on me soon you are like the big bright sun the shines the way everything I say can't be said any other way I love you to death and nothing is every going to change the way you make me feel the butterflies you give me deep inside my sole where all my feelings can be held yet the feelings for you they creep on out like a monster in that shadows a monster who is friendly and funny and will love you till the end of time who will be right here by your side I am that monster who loves you to death

Nothing you do can change the way I feel about you and nothing you say will ever take away my love for you you are the only one I can wish for the one I dream about the one who I can talk to the one I brag about the one who I love more then just a friend the one who I will love in till the very end the girl who completes me and everything I feel the girl who I love and this love is real nothing that you say can change the way I feel

Life

Grab my hand I will show you the ways of life
It cuts you just like a knife way down deep
you never know when it will strike or what it will bring
every single day I just want to sing to break away from all this pain
how will I ever get through another day here in this misery only you can help me
see
the light and the goodness in every day you bring out the good in me in each and
every way you make me smile you cheer me up your the one to fill up my cup all
I can do is thank you for showing me what it means to be a friend for showing
me how life will end all I can say is thank you for every single thing you do I love
you in every way I love you in the darkest days

My Love For You

You have shown me how to love
what it means to be a friend you have shown me everything I now know today
you have help to guide me through each and everyday
I love you to death and you should know that no words can go to show
just how much you mean to me I make it clear to see that I cant be without the
your the sun to my day you take all the clouds away your the one who brittens
my day
I love you till the day you die I will be the one to drift up to the sky and be right
by your side I will never let you go words can't go to show how much I love you
so please just always stay true to what me and you used to be what me and you
had can never be replaced i can never let another girl in your place I just want a
second shot with you
Shells me and you once again happy as can be that is all I want for you and me

Sisters

Nothing will ever be the same everything is different you are like family now nothing can change that you and I are so close closer then ever before you are my sister and I could not ask for more your here for me when I am feeling down your here when I am feeling blue your here to help me and show me what to do every time I look down at that teddy bear you once gave me I think of all the fun times we had that week where we grew closer became family the night where we ate candy and drank soda all night long everything I have felt for you has become strong

You are the sister who looks out for me you are the sister that helps set me free you give me advice on everything I can't thank you enough nothing can tell how much I love my sister yeah we fight sometimes but we laugh to cancel it out and all I think of when i'm with you is how much of a sister you are to me you make me smile on the darkest days you take the clouds away

Everything you say can make me light up I glow like the moon way high up you make me laugh even though you hurt me sometimes I know your just playing around and every time I go to frown you turn my frown upside down I can never thank you enough for being the sister everyone dreams of having I can't thank you enough for being here for me your here for me when I need you most your here to show me how to live life your here to show me how to smile your here to be my sister Your the greatest sister a sister can be

When I hear our song on the radio I turn it up loud and start to sing it really loud when I get board I remember that one night when me and got up at two and started screaming that song " Give me a second I need to get my stories straight my friends are in the bathroom getting higher then the empire state " I love that song and that is one of our songs i just want to tell you one important thing " You don't know your beautiful " and " The sun goes down the stars come out and all that counts is here and now my universe will never be the same i'm glad you came " You are more then my best friend you are my sister who I can talk to about anything you have made me smile when I am sad you know how to cheer me up and make me laugh again when I am sad and begin to cry you hold me and hug me just like a big sister should

If only there was a way for me to say how I feel if only there was a way for me to thank you for all that you do if only there was a way for me to tell you how much you mean to me I need you to know that I will always be there for you

when ever you need me for what ever the reason may be you can talk to me i'm all ears and ready to listen you and I have grown up around a lot of the same things I am here for you I understand you and when yuo have been through you are my big sister I could not ask for anyone else Shells you mean the world to me and you know as well as I do that I am always going to be here for you I understand just what you have gone through and I am here to help you we are the best of friends never forget how much you mean to me

What You Did To Me

Your not gunna break me down
your not gunna make me frown
your not gunna stop me
from being who I want to be
even if you try you will never get through
cause I can't deal with people like you
you crushed my heart
left me in the dark
to fall apart you said there was nothing you could do
you said there is no way I can help you
so I was left on my own to deal with the stress
that I will confess I am hiding who I am
I can never be around a man because of what you did to me
you will no longer be able to see what you did to me
the pain you put me through you will never know how much I hate you
my life will never be the same I will forever be in pain the way you touched me
the things you showed me how you said it was okay
me being five I could hardly survive what you put me through
no one believed me they said I was to young to remember anything
and yet to this day I am scared to face the real truth I can't trust any one thanks
to you
There is one person I can trust who has been here for me through everything
there is one person who I love more then the world can tell her name is Chealsey
