# Live Forever

Life is too short to be anything but happy so LOVE deeply, KISS, slowly, FORGIVE quickly, LAUGH nonstop, SCREAM & let it out, CRY and show your TEARS, Face your FEARS Never have REGRETS, Forget the PAST but NEVER forget what it TAUGHT YOU :)

# Pain

Pain doesnt hurt when thats all youve felt, do you even realize the pain youve  
deelt? , When We first ment u made my heart melt, But u broke it its gone  
Everything went wrong, ive wait my whole life somone like u to come along,  
it was to good to be true i have to stay strong even tho i was wrong,  
I belived you for so long, I even wrote you a song, But instead you cheated ill  
never forget how much my heart has been beaten, but every hello ends with  
goodbye, I fell for your stupid lies, But instead i hide, YOU SHOULD HAVE BEEN  
MINE

## To Good To Be True..

Trying to forget someone you love is like trying to remember someone you never knew.. i should have known it was too good to be true, if only you could give me any kind of clue to show me you still love me to, I'll never forget the time you wrote forever on my shoe like a love movie, that should have been a sign to forget you, i don't regret you i miss you, i don't want you, i need you, i don't live for you i love for you..-Alyssa :)

# When The Rain Falls Down

when the rain falls down it awakes my dream  
when the rain falls down it washes me clean  
when the rain falls down it screams my scream  
when the rain falls down it follows me  
when the rain falls down it carries me  
when the rain falls down it unties me  
when the rain falls down it talks to me  
when the rain falls down im comin clean  
when the rain falls down. down on me.
