Life Is A Chace Of Time

life is about chance of a life time and when u get that chance of a life time u have to give it everything u have and hold nothing back no regrets and if u feel ur self to slip alittle then take the lord in to ur hands and have faith its wat dreams are made from its there own secret recipe faith is wat u have to have in order to make dreams come reality its all u need to get wat u want mixed in with a little love and the number one thing is never regret anything because life is wat it is and everything happens for a reason..

My Confessions Upside Down

These are my confessions just when I thought my life was upside down I turn around and u take me to new heights of this atmosphere the higher u take me I don't think I can breath so this is the time I bring out the truth. this is by far not the easiest thing to tell u but baby this is me saying iv fallen through your arms and hit the ground pick me up and dust me off like I did my heart when u hurt me the first time I'm not sure how much more of this I can take. I will love you even when you leave me out alone and you walk away likes it no big deal. It's hard to keep fighting for this lost cause but baby you make every cut and bruise worth it.12/14/09 poetry by Bret Zeller

The Creator

life is all about creating oportunities when u get a chance of a life time take it run with it dont second guess because it might only come once so the best thing u can do is dont distroy a perfectly great oportunertie and make it the best time of ur life even if its not long and only a second but its hard whenu didnt even get a chance to make that dream come true.....!

The Show Room Of Love

I sit here think what is love what is the word mean as I close my eyes I search my memories and they flash like a movie and here is the movie I see when I think of love. love is a feeling a meaning like the word hate the sky is beautiful in the night sky with the stars so high so far like the person we look and seek there is only one word and one meaning for it there's one word for love and one meaning it is heartbreak because that's all it turns out to be in the end when one goes the other suffers with mourn or with disappointment but not all is bad there's great disappointment's people just look to close to find love when they haven't even tested the new car they see it and want it right then and there u have to see how it drives u don't want it and two weeks later it falls apart test it before test the world around u. find more look around and check the diff cars around u so I'm saying don't fall too soon in life walk the road float the sea travel and look around u don't close shop too early stay open there's always someone around better and willing to over bid for something u have. (You're heart) someone is out there for everyone people give up and stop when they haven't checked all the cars in the lot. That is the meaning and feeling of Bret Zeller 01/06/10

that color my world with beauty and the heart of that could heat my winter up
with kindness and the personality that comes from the clouds above and the
