# Blinking Star

there are so many stars in the sky  
there is a star golden yellow in colour  
it speaks  
how am i attracts you  
how am i special for you  
like that  
one day you will become...

Dhivya Thiyagarajan

# Bright And Beautiful

Everything is bright and beautiful

Life slowly ejects the happiness,

When the sadness get rid of it!

There will be a pleasant nature,

Welcomes the magnificent love

Enthralling berries makes the pleasure of prosperity;

Everything is bright and beautiful

Beautiful, beautiful, beautiful...!

Dhivya Thiyagarajan

# Drop Of Water

Drop of water  
early morning every individual leaf has drop  
that looks like glass  
some magic in it  
when the sun light touches  
it glitters so many colours  
it is so precious in this whole universe  
it has magic with it  
it gives us pleasant thoughts  
for that whole day

Dhivya Thiyagarajan

# Happiness

Things are beautiful

Heart invites the happiness

Time slowly ejects the love

Butterflies gets honey

Sadness evaporates

Bloomy flower rains

Mud path changes

Sand carpet turns into grassy flower

Sun awakes

Rain drop touches heart

Rose blends air

Touches heart petals

In provoking wind

# I Feel Alone

people are around me  
but i feel i am alone  
because of you  
without you i feels alone  
everyone of them taking care of me  
but i can not live their care  
because you are not with me  
if you are with me  
i feel happy  
if you are with me  
i will win this universe  
whenever you left me i feel alone  
but everything is with me  
when will you come?  
i am waiting for you only

Dhivya Thiyagarajan

# Lonliness

lonliness is a gift  
it helps to find out who am i  
what i want  
why i have to do  
it is a best feel  
do not miss the feel

Dhivya Thiyagarajan

# Love

Love is a beautiful word in this whole world

It is a wonderful feel in this universe

It is not a hidden feel in this world

It has some gravity power

It makes life beautiful

It makes happiness

It makes sorrows

It makes loneliness in our life

It is like fantasy

It is a part of our life

Because

Without love we can't to live in this world

It has so many faces

But

Everyone lives with it

Everyone has a memories with it

Even a single cell being has love in this world

It is a life

This miraculous word never leaves us alone in this universe

No one can't explain this feel

'LOVE, LOVE, LOVE'

Dhivya Thiyagarajan

# Moon

whenever we see the moon

it insists something to us

that is:

i am also alone

but

i am happy

i am not at all behave like humans

because

i am helping all the beings in this universe

in what way that i help them

only for light

the night fills with darkness

at the time i helps people

so i am very proud about myself

why shaln't humans do?

# Rain Drop

A dropp of rain  
cloud sends rain to earth  
when it reaches soil  
it makes fragrance  
no other person in the world will not make  
such kind of fragrance  
it means the happiness of the soil and rain drop  
rain dropp ends its life  
but  
it makes us happy
