## Dorian Melody(immortal)

The power of words pulls me in and my mind just cant stop throwing things out.  
o loose all control and feel in my zone. the words pull me into a safe place where  
no one can touch me or hurt me

## ~time~

As the hours drag on  
the doctors rush to save her life  
as the hours drag on  
the day ends with no hope left  
as the hours drag on  
a nurse informs a young girl's family full of distress  
as the minutes pass by  
a young girl slowly dies  
as the minutes pass by  
a dying girl whispers her last good byes  
as the seconds tick past  
she breaths her last breath  
as seconds tick past  
a family is struck with the truth that life does not last forever  
months past in a blur  
years will only dull the pain for the family  
eternity till they will meet again

# Bang Bang Bang

this is the end  
bang bang bang  
i will fight and defend  
bang bang bang  
guns fire bombs fly  
people die  
bang bang bang  
i am weak i can hardly speak  
bang bang bang  
if i die before i get to say goodbye you will know why  
bang bang bang  
who is in the right who is in the wrong  
bang bang bang  
this is the end this is my time to fight and defend  
bang bang bang bang  
the lights go out  
bang bang bang  
when will this war be over  
bang bang bang  
someone here my cry please don't let me die  
bang bang bang  
dollies and cars boys and girls homeless orphaned no where to go  
bang bang bang  
how did this start how will it end  
bang bang bang  
here is my last request  
bang bang bang  
now i lay me down to rest i hope i rise when this night is done i still miss all my  
loved ones. save me now don't let me die for i am starting to cry save me from  
this war forgive me if i don't say goodbye i beg you not to cry for this is my time  
to say my last goodbye.

# Believeing In A Lie

I try and i try  
every time believing in a lie  
first time you called it off  
didnt want to cause me pain  
said sorry and came back anyway  
try and try someo more i sent you out the door  
second time my bad  
i didnt like to see you sad  
ill face a smile just to make you think im okay  
but every time i see you with my best friend i have to turn away  
i just want you to be happy  
just want to not cry myself to bed tonight  
dont know if i could take you back even it the chance arives  
my heart says yes  
my head says no  
i dont know where to go  
dont know if i can do this again not know when it will end  
for i love you, im in love with you  
and im forever yours

# Coma (Short Story)

i lay on the ground unable to move the drought hungry dirt drinks away my life greedaly. my chest feels as if someone has ripped out my heart and started a fire in my chest leaving me bleeding and broken. its a task just to breath in then out. in the distance i hear a voice.....it sounds fimilar but i block it out. the whole world is silent as i cry over due tears that burn my face like lemon in a fresh cut. as i gasp for breath i loose all hope of geting up. i finally give up when i hear that danm voice again. cant they just leave me alone and let me die in peace but no... they keep calling out 'Leo.....Leo.....Leo please get up' i make a last ditch attempt to stand because something about there voice draws me close to them. i give it my all but fail, the whole while crying tears that have stoped burning. i reconize that voice i know who it is i have to get to him i must get back to Gem. as soon as i stand up i white out and awake in a hospital bed with my fiance Gem squeezing my hand as he sleeps peacefully by my side.

# Fairytales Only Hurt In The End

you said you loved me and i believed you  
i got hurt  
you used the phone you got no class  
now i know all good and bad things pass  
i could say i still love you but that would just be a lie  
and i don't lie  
i am not going to cry cuz that would mean you hurt me  
so here is what i think  
'no guy is worth crying over and if one were he wouldn't make you cry'  
so bye-bye

Dorian Melody

# Give Me A Name

i was good i was bad this is me this is how i am supposed to be  
i live my life and never give up i am loved and i love back my boyfriend calls me  
his hoshi (star) i smile i blush me gives me a good laugh here there every  
where no one knows this is how it always goes its a mystery is what they tell me  
die for this live for that my head is spinning out of control i am going down  
another dark whole this is just another day i hope i can find my phone cuz i feel  
all alone i got a notion i wish there was a potion to help me with this quotient.

Dorian Melody

# Grandma And Grandpa

old and wrinkly wrinkly and old cold to the touch loving embrace i really miss  
your smiling face the way you love this and that its a sad fact that you are gone  
and i feel as if you were never here and i fear that as the days go by i will forget  
you and wonder why there is an empty space that nothing will ever replace your  
smile is what i miss the most as i sit here writing this down i begin to frown  
because i was afraid to say good bye knowing you would soon die why o why  
when i lie under the stars i give them a reason why i love you but then i ran out  
of stars and i miss you most even more then words can say and finally tho you  
and i wish you could tell me not to cry and let me know what happens when you  
die forever your grandchild who will forever miss their grandparents smile

Dorian Melody

# Here I Am

I am here standing right before your eyes look around at the world before you everything you see is everything you get when I see you looking down at the ground like you have no meaning I am here to protect you I am here to be your friend the only one who is with you when you sleep and as you weep I am here to comfort you in your times of need I am here and here I am your guardian angel in the form of a friend because here I am.

# I Am Free

I saw you looking my way with eyes of pureness that melted my heart of stone I lived with the fear of losing you all the things I did were meant to please you but when you left me I felt as if I was tied to a tree and you yelled ready aim fire you saw me cry every day till I realized that I am strong and I did not need you I could walk this world alone with no fear or dismay when you returned I said no because it was you who had hurt me you who had let me cry till I learned to live a life of freedom joy and happiness without you I am free to do and say as I please.

Dorian Melody

# I Am Sorry

When i am around you i feel complete and i cant help but smile when we are clumsy. Teeth knocking, eye glasses crashing, nose smashing as we both move to make a move one zags as the other zigs.

when you told me you don't dance but i know you do. from that time in science class my senior year to the time at my senior prom as i held you close but held you not mine. your lips pleading me to make you feel and i to faithful to the relationship i was in as before my eyes it fell apart. I wanted so badly to lean in a little close to hold you a little tighter. I just want say that i am sorry i didn't kiss you but i am not sorry i asked you to be mine.

Dorian Melody

Dorian Melody

# Innocent

Outside on the rain soaked side walks a younge girl not a care in the world  
splashes in puddles and stomps through mud. Her little pig tails swinging back  
and forth, tiny freckles doting her face and a miss her first tooth grin that makes  
you smile no matter what. Then theres her eyes so clear, so happy, so innocent.  
In her eyes the rain washes away all the bad in the world and everything is okay  
and fresh.

Dorian Melody

# Nobody

I may not be a famous rapper like Kanye, or actor like Chris Colfer, or an author that is world know like jk rowling.

But on the dark nights and days when you think 'nobody loves me, nobody cares, nobody sees me, nobody would care if i am here, nobody will miss me when im gone'

You're right, nobody loves you, nobody cares, nobody sees you, nobody would care if you are gone, nobody cars if you are here or there.

JUST REMEMBER I AM NOBODY.

Dorian Melody

# Not Mine

not mine thats fine  
theres this guy/girl they belong to someone else  
they hardly know that your alive  
when you talf to them its like trying to talk under water  
you can hardly breath and when you leave you think that you are such a dweb

Dorian Melody

# On My Grave

i sit here alone and i wonder why i had to die  
i made my little sister and parents cry  
i could never explain why  
all i ever did was lie  
now i am starting to fade  
all my life seems like it was only a day  
its hard to say if i will live on or decay  
six feet under in this wooden box i miss my warm bed and puppy dog socks  
it was a big shock  
when that car rammed in to me only my lonely life i could see  
my little sister SAM could have been the one to be hit then have the guy run  
i wanted to grow old and watch my daughter and maybe my son  
it would have been quicker if the idiot had just shot me with a .45 mil gun  
but no he had to run  
good-bye love good-bye sun good-bye every thing and everyone

Dorian Melody

# Oww

Dorian Melody

# Roses Are Red

roses are red that doesn't always mean true love  
violets are blue just like i feel when i think of you  
suger is sweet at least thats what they say  
todays another rainy day no time to play

you said hello  
you said goodbye  
you let our love die  
you let me go  
without care you thought it was fair

i give you a strait stair without one tear running down my face  
you just walk on by without a hi or even a sigh  
you made a low blow  
you hit me where it hurt the most  
you where the one who lost the most  
i live on with the memory of you long gone

roses are gone with you who knew  
violets are nothing new along with oyu  
suger was sweet till i met you i have no more tears to shed for you

Dorian Melody

# Sanctuary

She sits alone in the lunch room  
stands in her own at the  
crowded bus stop  
books pressed tightly to her chest  
holding on so tightly knuckles white  
like everything might be ripped from her  
she is always so alone  
her eyes plead silently for someone to pull up her sleeve and see the bruises  
few know and none do a thing  
when she boards the bus she holds back tears always hoping that someone will  
call her name and stop her from returning home  
stop her from returning to the place where pain is all too familiar  
where her mother doesn't come home till 3am and her step father  
drinks too much  
where even though he stops when she cries she has become numb to the  
pain inflicted by the back of his hand her face stone cold she'll hold the tears  
back till she has cold water running down her face

she is one of many who hide the pain and the bruises she is not the only one  
always hoping for someone to take her away

Dorian Melody

# Snow

i sit here alone feeling stoned as i watch the cold burning snow fall from the sky  
it is a sad lie that when you die it is not peace full my breath is slowing soon i will  
be going i close my eyes and begin to cry and i want to tell you good bye but it  
is not good and i dont want to lie

Dorian Melody

# The End Not Truly

This is the end and i just want you to know that I'll miss you my friend  
i know my death will effect few but you'll be the only one that knew of what i  
have done and how i feel i drank some alcohol to numb the pain and my head  
is reeling  
no pain i am feeling the knife is in my hand all the thoughts in my head are  
suddenly clear if you love me more then just a friend like i for you  
you should know what to do STOP ME  
if you love me just take the knife from my hand and hold me close  
now i'm six feet under and you come by every day to tell me you love me then  
one day you come with a gun and put an end to your life because from what i  
heard of your last words you love me and are going to join me  
welcome to my grave brave soilder

Dorian Melody

# The Truth

From the time we are born  
we are thrown into a world  
where we are given nothing at all  
but a name to our being  
a head filled with things feed to us  
We are told we can be anything  
then as we get older we are then told we can be but a few things  
I want to be more  
I want to be free  
I want to be all the things cl0osed to me.

Dorian Melody

# They Said

they say true love waits does it  
they said the world was flat in the end it was round  
they also said that men were better then women  
and again they were wrong  
then they said that earth was the center of the universe and were wrong again  
so you tell me does true love wait

Dorian Melody

# With Out You

I'm lost without you  
Theres no place safe  
No place that doesnt remind me of you  
I miss the way your hand fit mine  
The smell of you still lingers all around me  
I wish i could find you  
I wish you were still here  
But your gone and with you  
You have taken a part of me  
You were a father or a mother or a sister or a brother.  
A lover and a friend a son or a daughter a grandpa or a grandma  
With out you i have lost a part of my self
