## ~ Myspace Fan ~

When times are hard I run away to hide  
No more will I sit back and let things ride  
I will speak my mind  
No more will I be kind  
I will never fall in love again to be hurt or to be played  
I will never sit back and ack like everything is okay  
I let you took my heart and do whatever you wanted  
Now it's my turn and I'm never again gonna let you take my love for granted  
Trust is a big issue between you and I  
When s+\_t hit the fan I see how you fly  
You want to be like me and that I can understand  
When I look on your myspace I am your biggest myspace fan

I see how you envy me, I love it I really do  
Everything you got about me on myspace is not really all true  
I get it, I really understand  
That I Melissa Haynes is your biggest myspace fan

Like an artist I am going to thank you  
Without you all my dreams wouldn't be able to come true  
I need someone there to tell me I am never going to make it  
So yeah when I see you in the street I will smile and fake it  
Like a real b++++h I will be honest with you  
So no need for me not to tell you the truth  
I don't know if you will read all of my thank you letter  
It show as hell made me feel a whole lot better  
After I'm done I'm gonna look at your page and laugh  
Yeah I know my head bad  
Look at it on the bright side you got your point across that everybody understands  
My point that I'm making to you is that I'm your biggest myspace fan

Hello World

## ~all By Myself~

I am all alone without you here to hold me. I am not the same anymore can't you see. I try and try, but without you it's no fun being me. I had a dream last night and you were there. The more I looked in the darkness you disappeared. I try to hold back my tears because I was all by myself and that was my number one fear. It hurts me to know that some day you will find somebody, but right as of now I have to let you go! The reason why? Well, you and I both know. No need to contact me because it's hard right now for me to move on, but the safety that i felt with you is now gone. I trused that you will protect me from harm, but what you did to me set off an alarm. I thought if it got down to that point I could call on you for your help. Now I realize at that very momment I felt like I was all by myself. I love you, I'm not even going to lie! That's why it's so hard for me to say good-bye! Just hear me out when I say that you will find love some day. Right now just not with me

# Another Day Goes By

Another day goes by and your still not here with me  
Another day goes by and you is all I dream about when I sleep  
Another day goes by and your smile is the only thing that comes to mind  
Another day goes by and thinking of you that's how I kill time  
Another day goes by and I look at your picture  
Another day goes by and I think about you being with her  
Another day goes by and I'm thinking with if  
With if you and I can be one again

# Aundy

Life is too quick, took you in the doctor office because you was sick. The doctor  
came out, but you didn't Christmas next week, but you'll miss it. I cry everyday  
and night because in my heart it just isn't right,  
I can't believe that your gone, its hard to except the fact and move on. All I can  
do is cry and remissness  
The day I heard the news if your I was piss  
At least, the part I can not believe, is it really you who I see  
Aundy Aundy! Please say something  
Aundy Aundy! Now that your gone everything is different  
As you spoke no words I knew it was true  
People comes to go  
Even the ones that are the closes to you

# Black Or White

Is it a black or white issue?  
What is it with you?  
Why Is It all about race?  
Why does it matter, what's the color of my face?  
We should get the same consequences, but yet we don't  
You should lock them up too, but yet you wan't  
Someone please tell me why?  
If we do the same crime  
Why don't we get the same time?

Hello World

# Boy

Boy I really love you and  
I hope this poem show it  
You is the only one for me and I hope you already know it  
Seven months and we still holding on  
Boy I'm surprise because I thought you would have gone  
I don't want you to leave me, but if you want you can go  
I hope you anit cheating on me  
Nah  
You wouldn't scoop that low  
You say you love me and care for me, but I really don't know.  
45% of you want to break up with me  
I know this is not the greatest advise maybe you should leave if your not happy  
Boy whatever you do is up to you  
If you love me then you'll stay  
If you don't then just walk away

Hello World

# Come Home

Please come back home  
I don't like it that you are gone  
Memories I had as child keep driving me wild  
I keep thinking about your smile  
I miss the way you and mama use to look at each other  
Everyone knew that y'all two were lovers  
Now y'all got a divorce and you is gone of course  
I want no need you back in my life  
I don't care if you have to beg mama to be your wife  
Daddy please come home  
In my heart I feel you was never gone

Hello World

# Coming Back

Why do you want to be with me if your going to cheat? ? ?

I gave you time after time so you can leave

Why do you keep coming back if a faithful relationship is not what you want? ? ?

What am I doing for you that these other girls don't? ? ?

Is this a game to you to see how much you can hurt me? ? ?

If so, I quit because a broken heart is not what I need...

Hello World

# Different

A new person I want to be  
Everyone is different except me  
The hunger I have for friends  
The anger I have to keep within  
The time that I will never spend  
It's all because of me  
I just want to be somebody  
I want to have someone linger to my everyword  
I know what your thinking that I'm absurd  
Don't jugde me if you didn't heard  
Everyone who I trust they hurt me in some type of way  
I try to stay away, but in the end it's never ok

Do you really love me  
Or the curves in my body  
Do you look for what's in my heart  
Or just trying to get close to my parts

Or sweet talk me to get a hit  
Do you really want to be

OR

Just kidding me

# Drug Dealer (Part 1)

On this block 24 hours a day  
Selling this shit so I can make a way  
Out of this life and into a new  
What's on the other side I don't have a clue  
Drugs kill people faster then guns  
Rolling those blunts  
Watching the po po as they go on their drug hunts  
Running day after day  
Had a thought to myself  
I gotta make a way  
Too much on my mind  
Any day now can be my time  
But I go around pretending it's all fine  
How can I get out of this life  
How can I make it all right  
Everyday I have to fight

(At Night)

Alone in the dark he comes up to me  
I said to him what will it be  
He said with a raspy voice, I'll take some weed  
As I pull my stash out he had a gun  
I back up because I was stunned  
Was this my time to go  
Read Drug Dealer Part 2 If U want to know

## Drug Dealer (Part 2)

The air was cold, but my body was hot  
Nervous as hell thinking that I was going to get shot  
I try to pull out my gat  
Tell me somebody why did I do that  
The pain I felt was so unbelievable  
I can't tell details that would really show  
The blood was draining, I could feel it in my gut  
Thats not all he shoot me in my butt  
The bullets kept on going  
The blood just kept on flowing

(The Alarm Went Off)

Oh  
What a wonderful sound  
I woke up scared lying there stunned on the ground  
I was amazed it was all a dream  
I was thinking about what I have seen  
I got dress as I normally do

Daddy daddy I love you  
I look over to my daughter and gave her a hug  
Drink what was left in my coffe mug  
I knew deep down inside one thing havn't change  
That thing I'm talking about is that I still slang  
I just want to leave it all alone, but I can't  
It was easy to get in, but getting out anit

I called my boss man and ask him what was new  
He sounded scared and ask me if I could come through  
I said of course and I was on my way  
When I got there I had this feeling that said I shouldn't stay  
I wanted to be brave and went in any way  
There was blood on the floor and the smell of death  
3 mens hold my boss man by the neck  
Something bad was going to happen I already knew  
Only problem is I don't know what to do  
Why is it every time I try to get out of the game they just want let me be  
To see what happen check out my new poem Drug Dealer (Part III)

Hello World

# Drugs

Do you think selling drugs make you a man  
Or do you do it just because you can  
Crack can miss up a whole family, but I guest you don't care  
I just want you to stop because our own mother is in fear  
In fear of her little boy being shot and kill out in these streets  
If you wasn't stop for her than please stop for me  
I hope God has pity on your soul  
For he is the only one who knows  
You is the only good thing that ever happen to me  
I don't know what I would ever do if you should leave

Hello World

# Fate

As the morning sun rise my stomach floats with butterflies  
Just the thought of you gives me the shivers  
Should I talk to you  
Oh, I'll never  
If I procrastinate, will it be too late  
Is it God fate for us to be this way  
If not then what should I say  
As you walk past me, my heart skip a beat  
I thought you would ask me what my heart once seek  
This crush that I have I can no longer keep  
Either its up to you or the fate of destiny  
Which one is it going to be

Hello World

# Final Goodbyes

I open my eye this morning hoping for a change  
Got to school and realize this relationship will always be the same  
You and I will never get nowhere  
We talk here and there  
We can only hold our breath not for too long  
Knowing how I am by the end of this month you will be gone  
I need something new  
What I don't need is you  
You are holding me back from what I really wanted  
I feel you have took this relationship for granted  
I was unhappy, this you already knew  
This is my final goodbyes to you

Hello World

# Foot Steps

In your foot steps I stand, I stand  
All the responsibly and commands  
To get respect you must earn  
This lesson was oh so hard to learn  
Day by day, there is a new task  
The harder you work they get on yo ass  
In your foot steps, I cry  
Life gets harder each day that goes by  
Life kicks you down you try  
The questions I ask, is why?  
Nothing, but tears dropp from my eye  
In your foot steps, I am what I am

Hello World

# Forgive Me

All the times I left and you still took me back  
All the times we broke up and you put this relationship back on track  
Love is all you gave me  
Pain is all I let you receive  
I know you would prefer a girl who can meet all your needs  
Why do you love me time after time I ask  
The things I do to you I know I can't take them back  
All I want to do is to tell you sorry  
Now all you have to do is say you forgive me

Hello World

# Getting Over U

Go, Leave, Disappear  
I don't care  
What you did to me wasn't fair  
What a fool I am or should I say a fool I use to be  
I have gotten older and wiser  
Now I can finally see  
The relationship was clearly not about me  
Admit it the relationship was all about you  
You didn't care what I said or what I do  
What people said was true, I was better off without you  
Don't get me wrong, I don't know put this all on you  
I thought I could change you, but if only I knew the pain you cause or the drama  
you would put me through. Bye, Sayonara, Adios, what was special between me  
and got to do

# Giving Up

Now that things are over between me and you. i don't know what else to do. I tell myself that I'm ok, but in my heart things aren't so great. I knew something was wrong when you wasn't calling me on the phone. I don't understand, why anit I right for you? If I'm not, who? It piss me off more when you acked like you care. How could you care when you wasn't there? I don't understand what I did wrong. I always called you on the phone. It's you who didn't return my phone calls. Really I don't understand where did I fall? I needed someone to talk to. I couldn't talk to my friend, but she just made me more and more piss. In my mind i kept thinking how could you she be so careless. Maybe it's love because there are no more things I can think of. Lord, is their someone out for me. That would except me for my personality.

# Go

Where am I to go,  
When the people you love run away from you?  
Where am I to go,  
And what am I suppose to do?  
The people you love they treat as if you don't exist  
When I'm gone,  
Will I be miss  
I feel like my world is ending  
No matter what I do to make things right the world is winning  
I feel like giving up  
If the people around me don't care then why should I give afuck  
People will always smile in your face, but their intent is to hurt you  
They never know how it feels because their not in you shoe  
The struggles I went through know one never knew  
Growing up I hid all the pain that bother me at home  
At school the teachers or students would never known  
I did so much to hide  
The pain and mistreat I felt inside  
I want to run away  
I want to run away  
I want to run away  
I do, I really do, I don't want stay

# He Was Into Her As Death Was Into Sea

As tears rolled down her eyes, his car drove away  
Knowing deep down inside, she'll never see him tomorrow nor any other day  
She didn't wipe her eyes for she wasn't ashamed of her tears, for the man she  
loved for so many years  
She counted each and everyday that went by, for that was the number survive  
Winter nights arrive so cold without his soft, warm, hands  
She felt that not even fire can warm her like he can  
Life goes on as they all say  
Take one step at a time in it's all great  
But how could she let all go for she loved him so  
But he didn't know  
If he wasn't by her side, then no one would be  
So she drown herself in the dark, willow, sea  
As her body sank beneath the water, she had rest in peace  
For she no longer suffer because, she had no breath to breeze

# I Am A Child Of...

I can feel the disease crawling through my skin  
I can feel my body getting weaker within  
A shadow stands upon my eye  
I am always tied and I don't know why  
My body is frail as a feeble woman  
Lord can you help me fight off this evil demon  
I prey because it wont be long  
Before the gates of heaven open and the angles sing a joyful song  
I am to young to die, but someday I will go  
Just not right now because there is something you need to know:

I am a child of God, but I never took the time to prey  
I am a child of God, but never visit a church on a Sunday  
I am a child of God, but I question God ability  
I am a child of God, but dying from HIV.....

This poem is written for all the people dying from HIV. I am not a victim, but who say you can't. Life is to important so do me and the rest of the world a favor and get tested for HIV.

# I Have So Much Stress On My Mind

I have so much stress on my mind  
Somebody please reach out to me!  
I have so much stress on my mind  
I need help can't you see!  
I have so much stress on my mind  
I just need a little release!  
I have so much stress on my mind  
I know I'll just count 1 2 3  
I still have stress on my mind  
What am I to do when I can't just let it all be  
I have so much stress on my mind  
Who is going to help

# I Need You

When I look in your eyes  
My stomach float with butterflies  
Nothing can change the feelings I have for you  
There are no wrongs you can do  
I'm sprung by your every touch  
Weak when I don't get it much  
I'll be here even when you leave me  
I'll change and be whatever you want me to be  
I'm weak without you can't you see

# I Remember

I remember it as if it were yesterday and you were sitting in my living room  
We sneaked around so my mother wouldn't know  
You were my first real kiss  
Well that was then and now the past is what I will miss  
The first day that we met each other my stomach was full with butterflies  
You was the only boy for me and you know why  
Only thing was you wasn't faithfully mine  
That all started years ago not I have moved on  
Then all of a sudden you came back to me and that, I'm so over you attitude was gone  
At that moment I felt so close to you that I shared something so special with you  
That I never thought I would do! ! !  
I try to act like it was the right decision, but deep down inside I wish I can take it back  
I can do so much better and that's a fact  
Now you have a child and all I can think of what if  
These feelings that I had are all a myth  
I can't even lie, all those feelings come back strong as ever  
My heart is sore and falling deep in love again I don't think I'll never! ! !

Hello World

# In Love

Maybe you and I can try to work it out  
I known it will work this time without a doubt  
I don't want to lose you  
I don't know what to do  
All I think about is you  
I would do anything yo want me to  
I love u  
I love u  
I will say it a million times if I have I have to  
As long as you know how I feel  
Then my day is complete because you know I'm real  
When you look in my eyes I know you feel the same way too  
That is why I'm in love with you

# In Love With The Past

How can I still love someone who left me without saying goodbye?  
How could you leave me without letting me know why?  
That same year I met someone new...  
2 years in our relationship and I still think about you...  
Deep down inside I feel that my heart won't ever be the same...  
Until I get in touch with you and get rid of the pain...  
I want to tell you that I'm still in love, even after you broke my heart  
I miss you the most when my current relationship is falling apart  
How can you forget about me when we talk everyday  
I don't know about you, but I miss it when we use to say  
I LOVE YOU  
I hope that you still do  
The past is in the past, but my heart still lies with you...

# Innocence

She open the door, seeing him was no surprise  
Smiling at her because they both know what awaits inside  
As they walks up the stairs her heart beats faster and faster  
She look back as he playfully grabs her  
When they got up the stairs he laid her on the bed  
They began kissing and then he said  
I love you  
She said I love you too  
He undress her as she undress him  
Both of them kissing and sweating as the light goes dim  
This is the moment when she give her innocence away  
As he pull out she didn't know what to say  
He ask for any final rejections as he stick it in  
The pain was unbearable his heart was all she wanted to win  
She thought giving it up was going to let him stay  
That was all she thought about and pray  
Then, the pain struck her again  
Her innocence has gone away

# Inside Of Me

At times I don't wasn't to be this person that is inside of me  
I am only what everyone else wasn't me to be  
I think to myself while no one else is around  
Thinking what have I've done to beat myself down  
I try to listen to the things that I say, but other things get in the way  
I try to look my best, but at times I look in the mirror and that  
Voice inside of me say just give it a rest  
Who am I  
And what do I want to be  
Who is this person that is inside of me  
How am I to love one if I don't love myself  
I telling you man  
I need some help  
At times I look in the mirror and don't know who I become  
I look in the mirror to call myself dumb  
Tear dropp out of my eyes for no reason at all  
Looking at other people always make me feel so small  
No matter what I become I will always feel the same  
Nothing I do is cooler than lame

Hello World

# Let It Be

I never knew what love was until we kiss  
Now that we broke up I can truly say love is what I miss  
The way you hold me is why I stay so long  
You never know what you got until what you got is gone  
In the end I knew you was wrong, but your love got me oh so sprung  
I got to admit I like what you do with your tongue  
At times I realize I want you back  
A good girl, shed, you don't want none of that  
You would prefer those nasty hoes out in the street  
Tell me, what them bitches got on me?  
When you with them do u think about me?  
At first I was blind, but now I can see  
You will never be faithful, you will always cheat  
I'm not mad at you I put the blame on me  
The reason why is because I sit back and let it be

Hello World

# Let Me Love You

I know you can't get everything you wasn't in life, but the thought of you not  
being here just don't seem right  
I think about you day and night  
Why don't you think about me like I think about you  
I think it's about time I know the truth  
If their another girl, I want to know who  
I just want you to know, I can do anything better than her times two  
Just give me a chance to prove it to you  
I don't mean to sound desperate, but your like a drug I to me I need one hit  
I love and it hurts me you don't have a clue  
I know you don't believe me, but what I am saying is true  
It's not fair to me, I don't understand  
I wish my heart was made out of bullet proof so there wouldn't be no harm that  
love could do

# Mess Up

I ran out of words to say  
There is nothing for me to write to describe my feelings  
It's mess up when all the words you can think of to the one you love is lock away  
in your heart  
I listen to love songs and compare us to them, but it's mess up when I don't  
have enough courage to tell you how I really feel  
I try to make you want me in so many ways till its mess up that I sometimes  
drive you away  
When I see you I melt and only you can make me feel this way  
Only problem I have with you is that you wont stay faithful to me  
It's mess up when you'll give up your whole entire life for someone who don't  
even care if your even alive  
Yeah I know it's mess up

Something that would stop the pain from hurting me  
I tried to ignore it, but it's to big for me to see  
I just wish I can get away  
My tears are like acid they burns every time they touch my face  
I wish life had buttons that would let us go back in time to erase....

# No Goodbyes

You broke my heart without telling me goodbye  
You left me all alone wondering why  
I put a year of my heart into a relationship that was not truly mine  
At first I was upset, but now I'm fine  
No need for me to cry because I know there's somebody out there for me  
So as of right now I'ma let it be  
You told me you're not like the other guys I been with because you will never hurt  
me or let me feel deceive  
At least they were man enough to tell me they wanted to leave  
Yeah I admit I treated you wrong in the past  
I would never thought you would do the same to me and kick me in my ass  
Yeah I never really say I truly been in love with you until you left me in the dust  
Now that you're gone my heart has no more trust  
I only can feel what I once had  
When I was with you I felt loved and never sad  
You left us unfinished now I must put this relationship to an end  
So for now it's Goodbye my friend

# No More

No more can I lie to the one who loves me the most  
I feel guilty more and more when you hold me close  
When I look in your eyes I see an innocence that can do no wrong  
I wonder If I tell you will that feeling be gone  
We all make mistakes yet I do them over and yet again  
If I tell you will this relationship end?  
The more lies I tell deeper I feel that I I'm being pull in a hole  
Me cheating on you I feel weak down to my soul  
Please don't be mad at me when this secret hit the fan  
I would be the best girlfriend that I can  
Try to think positive and don't hold your feelings in  
Deep down inside I hope we work it out in the end  
No more will I lie  
No more will I let this feeling ride  
No more will I cheat  
This is a promise that I dare keep

# Stay Or Go

There comes a time in a relationship where two people feel a very close attraction

I know the feeling is there between you and I, but we keep on acting

Last night when you bring it up I didn't know what to say

I knew someday the question would come up, but not today

Well, what should I do? ?

Should I give it up to you

Will you still feel the same way

I don't wasn't to fall for the things you say

What if it's all a lie

Then you get what you want and to me its bye bye

I want to know

Is you gonna stay or go

you and I will make love some how.

The smallest kiss makes my hole body shake. In my mind I keep thinking about  
all the love that we will make.

You touch me, I touch you, were both touching, but I know I can't get to close to

# Unconditional Love

From the moment I laid my eyes on you I knew you were the one.  
Yes, I know your probably wondering where this feeling coming from.  
When we got in this relationship I knew that this feeling could get a little too deep.  
I knew in the relationship that you would someday cheat on me.  
No matter how much I knew, I still wanted to be with you.  
Your kiss, your smile, the way you speak, all seem attractive to me.  
You could tell me you didn't wasn't me today and come back tomorrow.  
I wouldn't care, I would let you come back with my arms open wide.  
I wouldn't give a rats ass as long as your by my side.

# What Would U Do

She open the door, seeing him was no surprise  
Smiling at her because they both know what awaits inside  
As they walk up the stairs her heart beats faster and faster  
She look back as he playfully grabs her  
When they got up the stairs he laid her on the bed  
They began kissing and then he said  
I love you  
She said I love you too  
He undress her as she undress him  
Both of them kissing and sweating as the light goes dim  
This is the moment when she give her innocence away  
As he pull out she didn't know what to say  
He ask for any final rejections as he stick it in  
The pain was unbearable his heart was all she wanted to win  
She thought giving it up was going to let him stay  
That was all she thought about and pray  
If it was up to you what would you do?
