# Become Who You Are...And You Only

become who you are and become you only  
at the end of the day thats all you can be  
dont be afraid to be different

just be you  
whenever you're able to take a chance; take it

# Better Off Without You

People say they are 'lost with out you'  
Honey im better off without you  
You caused so much pain and hurt  
I tried soo hard to make you happy yet never thinking of myself  
You were slowly but surly turning me away from my friends and family  
You made me think the only person i needed was you  
Never that sweetie,  
The only person i DONT need is you  
At the end of the day  
You dont matter  
I want nothing more to do with you  
Please dont take this personal  
Its just how i feel  
You said you'll take the pain away  
But to a much less shocking aveal  
You did NOTHING! ! !  
So this is my final goodbye  
My last resort  
Im done chancing behind you  
I no longer need your helpless support.

# Changed Life

For so long  
I've been hiding  
Hiding my true feelings  
Hiding my inner thoughts  
So its time for a change  
A change in both my personal life and non-personal life  
A more relaxed me has been released  
No more friends  
Just me  
No more tears  
Just smiles  
No more hurt  
Just happiness!  
No more shutting people out  
No more letting people in! !  
JUST ME! ! ! !

[No one ownsz...JUST ME]

# Close Your Eyes

Close your eyes  
And remember  
Remember the times we kissed  
Did that mean nothing to you?  
Did you not feel the 'spark' that i felt?  
Close your eyes  
And think  
Think of the times you almost lost me  
Does it pain you to think about that  
as it does me?  
Close your eyes  
And hold me tight  
Hold me and tell me we'll put up a good fight  
That everything is alright,  
Tell me that you love me  
Close your eyes  
nice and tight

# Dear Life

Dear life,  
Sometimes i wonder about you,  
Like where you'll take me  
How diffrent you are  
How much people take you for granted  
Do i have to live a certain way?  
What happends in heaven?  
What happends in hell?  
What really shapes my future?  
Dear life,  
How many diffrent styles are you?  
Are you failur?  
Are you success?  
Are you painful?  
Dear life,  
What's your moral lesson?  
Is it to treat others the way you want to be treated?  
Is it to learn from your mistakes?  
Is it to live life to the fullest?  
Dear life,  
Is my goal in you to please the man upstairs? ,  
Or is it to make my own decisions?  
Is my goal in you to please OTHERS?  
Dear life,  
I'll make the best of you  
And we'll become best friends.

# Fear And Pain

suprised at my true pain  
which has been hindng,  
you touch my hand and place it gently against your lips  
and whisper in my ear  
you make me feel warm inside,  
uh-oh...  
here comes my enemy,

...

you take your hand and wipe away my tears  
thats when you notice my true fear,  
fear of loving you, fear of being hurt  
why is it important for you to love me,  
love me like this...  
why cant you hurt me like the rest?

# Her Brown Eyes

They show the love she has for me  
They prove it  
They pull me deeper in each time i look into them,  
without her knowing  
They look at me in such a way noone else does  
That sweet and sexy way  
I know i love her when they turn my head.  
Then her fingertips,  
touch my head and force me to love her even more

# I Dream Of...

I dream of the day  
Me and you can just be together  
Noone to interrupt  
Noone to fuss  
just us  
I dream of the day  
When the world no longer hates on what we have  
It's okay to be different  
I dream of the day  
I get to have you in my arms  
To love me  
To hold me  
And tell me everything's okay  
I dream of the day  
Where i no longer need to dream  
Where that fear and worry  
dies,  
like them dream i cry

# Keep On Cryin(Cant Stop The Rain)

These tear drops fall  
Cause im missing you now that your gone  
So i cry  
Knowing that it wont bring you back  
For it was your time  
God has called you home  
Even though i'll miss you  
I cant keep the tears bottled up anymore  
To try would be invane  
So i cry  
If i could i would  
Starin out my window  
Thinkin bout the times we didnt share together  
When i cry  
Another rain dropp falls  
So i cry  
But maybe it's time to stop crying  
I love you

# Tears Of A Misread Angel

No one understands,  
But thats okay with me  
The more i think about it  
My Heart begins to cry  
My words become  
The tears of a misread angel

No one will know me like i know me  
So there for there is no need to stress over what the world views me as  
I look how i look and there is nothin' anyone can do about it  
I know who i am inside  
A misread angel

I shall no longer worry bout the Battles of the outside world  
Battles i can not stop  
These words above are the  
Tears Of A Misread Angel

# Thank You

thank you,  
for showing me what a REAL friend is  
i now kow that  
when you talk to people  
and call them fake  
you aint REAL  
thank you,  
for showing me who not to date  
i now know that  
because of good looks, doesn't mean i need to like you  
i know that you aren't the boy for me  
thank you,  
for introducing me to REAL TRUE love  
i haven't noticed what would happen when you find true love  
you have answerd so many of my questions that have never been answerd  
you were my first love but not my last  
and for that i thank you

# The Memories That Kill

(inspired by kid kia)  
she sat down  
remembering them times  
that you held her and promised  
promised to never hurt her  
always protect her  
she smiled at the thought  
and frowned at the lonesome times  
that yall fought  
she walked to the bathroom  
opened the file cabinet and  
filled up her mouth.  
her memories wil forever last  
today and forever on  
as she watches  
from way past the moon.

# Thug Normal

So sweet when its just you and i,  
But when your in thug mode you push me to the side,  
The sweet hugs seem sincere when its just us,  
But when thugin' time comes,  
You take the car and leave me to take the bus  
You treat me as if i dont matter  
But yet i sit around and wait.  
While i turn down potetial mates.  
You out living that good life,  
I love the Thugish act,  
But that good ol' boy keeps me atracted.  
No Matter what.  
You keep on with the Thug Normal life.  
I'll be fine.

# You May Not Know(Not Really A Poem) This For The Ladies

Sometimes when your with someone you dont know it but you love them

I should know

It hurts when you start to relize it

you want to let that person know but you just cant find the words

Then they get with someone close to you and it pains you even more

at the end of the day you cant stress that

let life go on how it is

if you and him were meant to be yall will be

place it in gods hands and leave it alone

# You Pulled Me Through

I would not have made it,  
If i wasn't for you  
Nana,  
I wouldn't have self respect and  
be well taught  
If it wasn't for you  
Nana  
When i thought i was nothing  
You showed me i am worth ALOT  
Your strenght is what made me.  
To you i say thank you  
Nana  
For you  
I have a new look on the world
