# Adore The Ground U Walk On

Her voice is the food of my soul  
A sweet music in my heart's hall  
I can tell she has me dancing, me all  
I love her, I knew that someday I will fall

Her love is the air to keep me alive  
She is the water I always used to have  
With her by my side nothing bad I will feel  
No one wants to believe our love is so real

I wished a wish deep in my mind  
But I never thought it will come true  
To love a girl and be her first loved one  
But here I have her and the dream is done

Please understand that nothing will stand  
In the way of our love, or our far wills  
U will always be with me, asleep or awake  
I love u with my heart, nothing can't make

Know that our love is endless cause  
Without ur love I am hopeless and lost  
But ur the heart and the soul both  
Which place u want to live in, u worth

If my heart ever wanted to stop loving u  
I don't need to have one ne more  
Because no one can love me like u can  
I have this wish since ever, to hold u and run

Into the place no one can find us together  
Talking about everything and live forever  
No one can take me away from u, never  
The Destiny made u with me, and that's a favor

I know that I am with u even Better  
I know ur heart is with me even after  
If the world wanted me away from ur hands  
I don't want to live this life, death I'd rather

This year I won't have a feast as u will travel away  
The tears won't leave my eyes, but I will never say  
The distance will be long, our love won't be changed ne way  
My heart will always beat for u, each single Night and day

# Friendship Is Beyond Imaginations

Dedicated to my friend {{Hadeel Hani abdullah}}

i know u r with me in good or bad  
and u shud always believe in that  
i am by ur side, weather u r happy or sad  
i will never say, one true friend in the past I had

if the friendship was a very high tower  
then u r in the top of it, painting it like a famous drawer  
a picture that expains how we will stay togeather  
and nothing is goin to make us apart, never

i like alot of things in u, but the most is ur heart  
cause in there i can see a beautiful spirkle light  
i never want to see us having a fight  
i just want u to laugh and let ur hope be tight

if someday u felt so sad and want to cry  
come to me and we will be side by side  
and the narrow truth we will make it wide  
just know that i will take every tear and nothing will hide

if this friendship was a car, i wanna know how to drive  
and if this friendship was an ocean, i wanna know how to dive  
cause without friendship, there is no meaning of this life  
i hope ma eyes to be ur guard so it can cut everyone with a knife

but i am just a human boy who cherish u  
i wish i was a dreams maker, so all ur dreams come true  
but know that one wish will be true and i can make  
that from a true friend: 'from this true dream u wont wake'

u asked for a true friend and i will be, sure i will  
and everything empty in ur life, i will happily try to fill  
fill it with joy and happiness and every wish  
i will let people say u have hunted the golden fish

i am only asking you for an immortal friendship  
and maybe its for ne one else will be nothing  
but know that it will be a priceless something  
bcoz i cant fly to heaven without my other wing

# Happy B-Day My Love

Ur love is bigger than an ocean  
And in it, I always love to dive  
So happy birthday to my life  
I wish that u will be my wife

Ur birthday is my birthday  
Cause were a two souled person  
I can never imagine u goin away  
Cause I wont make it to the next day

I wish that I was with u  
I wish that I was holding u  
But my wishes are being too much ☐  
And it cant be so true to touch

U know that I love u so  
And that I will always do  
I wish I was ur present toy  
So I can always see u without annoy

But with you I made the impossible  
Only with u, the happiness is touchable  
And this love is always unbreakable  
Cause you are an Angel that's indescribable

# How To Say Thanx? ? ?

help is wot u do  
beautiful it is u  
and everyone now has to  
say that u r the best in life

and thats not something new  
i like ur smile cause its soft  
and feels like a river is flowing  
as that can take my breathe away

if i saw a tear instead of that  
u light the life of everyone  
weather that one is a boy or girl  
u make me feel like i am ur son

u advice and u become a pill  
if u felt like i am ill  
u help me to go through the life  
, and to help my heart to beat alot

u shine with ur hands opened to say  
'for u, i will make it a beautiful day'  
even thou its dark and full of fear  
even the happiness looks far not near

but wherever i am with u by ur side  
i can be happy and smiling as u r so dear  
the moment i touch ur hands to get help  
sharing my joy and sadness

u can say that i am like a lost person  
and u r the most beautiful guide  
tell me how to say thanx  
how to say thanx to a rose that enjoys the eye

how to say thanx to the clouds when carrying the rain  
if u cud know how to say thanx to those  
'saying thanx to u is easy' that must be a lie  
how to say thanx for a wall i stand on

how to say thanx to a bed i sleep on  
how to say thanx to a cure i put on  
how to say for a help and in return there is none  
so no need to talk and the answer is lost

so the problem we discuss is done  
i would call that 'help how to say thanx'  
its hard to say thanx to a mircale  
cause i can say its u hadeel

happy is wot i am since i met u  
and thats how i will always feel  
unless u left me behind with a tear  
i wished this to be real and clear

# I Am So In Love With U

i can be ur hero who flies near ur love  
i am the guy who can fight ur tears  
i would like to be a knife to cut ur fears  
do u know that from here, everything u say i hear

is it bcoz we r so in love or that u r more than dear  
when i sometimes cry of missing u, i clear my tear  
so that no one can ever see that i am sad  
u r the best thing i have, and the best in what I had

to be with you for ever i will always hope  
and years will never be able to stop us, nope  
cause we did plant the begining of our love in the ground  
and we are the ones who put the end of the rope

i would be there when u need me  
u will always feel me and u will see  
cause i cant do anything alone, it has to be WE  
or i dont know how many holes in my heart will be

if u were a tree i wish to be ur root  
and if u were just a human i will be ur foot  
And if u were a boat i will be the needed water  
So we will be parents and our love is our daughter

who can ever hate his daughter or leave her  
who does not have a heart to do this ever  
i know we will both love her more and together  
the word that will always be said is forever

to touch ur hand and feel in safe i hope  
and to move my fingers through ur hair i wish  
u make me wish alot of wishes that might be true  
its all about loving, hugging or touching u

# Me And U

Me and u till life writes 'The End'  
U will be my lover, sis and my friend  
When I am cold, I feel that u r holding my hand  
its like I receive the love that from there u send

No better lover than u I can ever dream to find  
U r so beautiful, lovely and one of a kind  
When u r scared know that my heart is the place to hide  
I feel that u r always with me, side by side

I wish u can open my heart to see ur self  
I wish u can breathe in my lungs to feel ur name  
And see with my eyes to know from where my love came  
Life seasons always change but ur love will always be the same

I am almost going to cry, bcoz of missing u  
I stand with no moves for a few  
Bcoz after some time I know that ur shadow is not true  
But my heart wont believe that I have never knew

Cause u have never made me feel like that  
I always feel u here, how to answer his what  
This part of being away I want it to be cut  
I love u with all my heart with no doubt or but

I don't how life would ever sound without ur voice  
I love how u call me with that sweet noise  
U control my moves like I am one of ur toys  
Ur beautiful heart is rare in girls or boys

(I love u) is a word that I will never stop saying  
And forever ur love will live in me so deep inside  
Cause I will keep it safe there my dear  
And no one I will put with it or even near

And if u ever wanted to shout in my soul  
Only ur name with the echo u will hear

So plz never have this fake, non close to truth fear  
Cause u really don't know my love is more than a fear

Know that I will never cost u a single tear  
Cause as people always take care of their roses  
I will take care of u, by watering and caring  
And I will never get u to say, its being boring

Weather I am by ur side or not  
Weather the kisses I send u ever caught  
Near the jasmins of my heart u have a boat  
A boat that u swing with it in my heart's water

And ur name, if good willing will name my daughter  
And for everyone who likes u, I will be the killer shooter  
I will always guard and love my moon  
That I know I will really see soon

If u ever got lost in the ways  
And got taken by the rush of days  
U can follow my steps with the light of ur heart's rays  
And u will get to me, just hear what ur heart says

The hardest thing is to describe u  
Is what I see is an angel or Is it really u? ?  
I really cant describe my beautiful baby  
Cause u r the worldwide best lady

And to the details u have, its harder  
Should I describe the soft skin that the water slides on  
Or the pure eyes, just like how the baby when its born  
The force of ur love makes me miss u, even when I am not alone

A princess hair lies on a dulcet shoulder  
A beautiful batterfly flies that's for my heart a holder  
Without ur warm feelings I feel I am colder  
Life with u is easy to live, but away from u its harder

Hands of an angel that came to life  
A girl that I will always wish, that u will be my wife  
A smile from u can refresh my life, for years  
Years I wont see sadness, regret or tears

Like a very white pelican cries in a lake  
That's how I feel when u r not here  
The moment I feel this is a dream that I will soon wake  
And as my eye sees u a lot, u r its most dear

I will always keep wishing to softly kiss ur hand  
And my eyes are looking into ur head  
And we r going to the first dinner date  
U wont have time to get ready, cause I wont wait

When I look into ur eyes I see them very deep  
Sometimes bcoz of the love I have to u, I begin to weep  
Cause I feel like I am in a big prison but my love seep  
Through that seep I can say ur love I will always keep

I always dream of the hug I want to live daily  
When am I gonna have it, finally  
I will always be waiting to have it really  
It means I will hold the sun that shines

It means that I will touch the water that spreads away  
It means I will be able to feel how is it to have obnormal day  
It mean that I will hug the most sweet, beautiful fay  
I will hug the rainbow that always fade, wots left to say

At that moment only I will realise the meaning of eternity  
And I will have the most shining pearl that's so pretty  
And in my heart all that I will have in is real pittty  
But I know that I will always do have ur love as a special ability

I wish I can get to u, just to hold u tight  
I will always live missing u, days and night  
I miss u baby, I need u her by my side  
If I spent a hundred years, a girl like u I won't find

I would not dream of a better lover than u r  
My life changes day by day, but u r always gonna be its star  
A star that is from me away distance, but its not really far  
U r my sweet, dear, hearty girl...and more lovely u r

U r the Soul and the Heart  
U r the Air and the Hand  
U r the Angel that's so Desirable and  
U r the everything for me, u r the one of a kind

The angel that is Sincere and Handsome  
The girl that is Affectionate and Honey  
The lover that is Amiable and Delightful  
U r the the butterfly that is rare and not like many

Without ur sound this life is cruel and it hurts a lot  
But when we r together united like this, it is not  
I promise that a moment without u, I don't want  
Or my heart should talk to know that it's not me who wrote

The hardest thing is to describe you  
Is what I see is an angel or Is it really you? ?  
I really can't describe my beautiful baby

# My Dark Night

Oh ma very long dark night  
Wot shud I do its not right  
She is out of ma wide sight  
I need her, I wanna hold her tight

I have never feel u that long  
I ve lost ma abillity after the song  
Loving her was a mistake, its wrong  
Even thou I am thankful, she loved me among

Ma life has all been about the pain  
Its like I am standing under the rain  
But I have knives instead of the tears  
I am bleeding from ma heart and ma brain

Ma love was ended, like it was hit by a fast train  
And our love was faded and that's the main  
Ma love is the past, no future or present  
She was always the best heat's merchant

Without u, I wanna die  
Nothing left to live, u r a lie  
Hate to feel that u were mine  
But now, just wanna know y?

Like an earthquake I c with ma eyes  
Ma heart is fallin to pieces  
And I wanna collect it soon  
U were all for me, even the moon

Mustafa Alsalehi

# My Wishes Are Much

i wish i was the Air to hug u alot  
i wish if the distance is sold and bought  
so i would always be by ur side  
even though u r always in my mind

i love u cause u r sweet and kind  
a girl like u, no one can find  
but even if i hugged u wont be enough  
cause i want to keep hugging u tight

and as big as this unviverse is my love  
i want u by my side in days and night  
i love u is a word that is just right  
when u say it, u make me spirkle like a light

so plz keep saying i love u to me  
with this word u can make a desert to be heaven  
u can make the memory to be rewritten  
a memory that only tells we r in love

Mustafa Alsalehi

# Ur Love Was A Gift

Ur love was a gift, that had me lift  
We r like the love birds, just so fit  
A sweet candle in the dark was lit  
Nothing will sperate us, u shud sit

Our love was like a song made a hit  
I was hurt and she was a firstaid kit  
I loved her with ma heart in a lil bit  
Like a careful man fell in a clear pit

While I was sayin, non girl to be loved  
Ur love shined in the sky with just one word  
I'll never say but, I know it has to be said  
I told ma mates, u r just a sweet maid

Some say our love will not last  
Because it happened just so fast  
but I will show them, that we'll cast  
and the show will stay up, sure it must

u r eyerything ma eyes wanna see  
i am like a ship sinking in ur sea  
and when u r not by my side  
I search a lot, where did u hide

Mustafa Alsalehi

# Ur Name Is The Title Of My Heart

Ur name is the title of ma heart  
Like a sticker nothing will take u far  
When I see ur heart, ma soul leave  
I can do everything cause in me u believe

Without ur love I can't survive  
It keeps me happy and alive  
Cause Ur love surrounds me all  
No move I can do cause u r inside ma soul

Please never leave me alone  
Hold ma hands hear my heart  
And make us together as one part  
Ma heart was injured by a sweet love dart

No fear, no doubt as I am so glad  
Finally now I can say ur heart I had  
No sad or mad cause u will feel nothing bad  
U will have me for the rest just like that

From the heart that beats for u all the time  
It's a poem that no one can say it's not fine  
U have all of me straight along the long line  
I am drunk all the time because of Ur love wine

Mustafa Alsalehi

# Your Sweet Voice

To the best girl on earth SHAHAD

I heard your sweet voice  
And I forgot what to say  
Is it really just her voice  
Or that's the angel's way

A laugh to forget the past  
And to see the life in ur eyes  
U made the dark to be light  
thanks, my heart says alot

I got a new direction for life  
Only with ur help, I can survive  
Show me the path my nice guide  
your the reason why.. I am still alive

if u r a dream, I don't wanna wake  
if u r a journey to the final, I will take  
and if ur friendship is a move to make  
i can say it will never be just fake

words can't express what's in my mind  
all stories and secrets loves to hide  
I think forever we will be side by side  
It's like a horse and we will both try to ride

All I wish that you will be a big mark  
I will always have u in my heart  
And if u traveled away, I'll be so sad  
because life without your touch, seems hard
