A Friend

Friends are far, friends are near,
Friends will be there to lend an ear,
They listen, laugh, and care,
But most of all, they're always there,
Through thick and thin, up and down,
Your true friends are always around,
For treats, hugs and real big smiles,
They'll travel to you from several miles,
They'll always be there to hold you tight,
Anytime, no matter if it's day or night,
You really know when your friends are sincere,
When they always show up to lend their ear.

A World Of Pain

I'm living in a world of pain.
I'm living a world of hurt.
I'm living in a world of sorrow.
Hiding behind a wall,
I fake a smile and cover my scars,
Hoping to hide all emotions from friends.
I hide my pain behind a fake smile,
my scars under a jacket,
and as for my tears,
I just hold them in,
waiting till the night when I can drown my sorrows in a pillow.
I am alone in this world.
A world of sorrow and pain.
A world of disappointment and grief.
I'm stuck in a horrible world,
and I don't know what to do.

Could You Be The One?

It feels good to be in your arms,
to feel the warmth of your touch.
I love to look into your beautiful eyes,
to see how much you care.
It feels good to have someone like you
to think about every day.
I love to take long walks with you,
to hold your hand every step of the way.

Darkness

I wish this world of darkness would come to an end
I lost a girl, I lost a friend
I'd give it all back if I only could
I've said it a million times, I know I would
I miss her more and more every day
She leave me, and my world is dark and grey
My life is a cloud of endless rain
I wish I could escape the endless pain
What's the point of living if she's leave me
There is no sun, there is no dawn
In my endless world of darkness.

Follow Your Dreams

I've my own dreams,
and my own desires.
Something for which I'm keen,
want to set the world on fire.

But you are the one who is stopping me,
for who I really want to be.
What you said ain't my will
and I know I don't have such skills.

You tell me to have an aim,
I have it, still you blame.
Don't expect me to be the same,
you're just bothered about your fame.

I can't keep walking on your shoes,
my dreams are something I don't want to lose.
I just want to follow my heart,
but you're letting the dreams apart.

I don't want to follow the crowd,
have a dream, heart is too loud.
I know my dream has a good scope,
I'll surely succeed, I still have hope.

At last, don't let your dreams apart,
whatever happens just follow your heart!

Heart And Mind

When I met you, my life changed
Don't know when this feeling came
I got out of bed one morning
Shocked about this feeling

It's not right to love you, I know
But I can't force myself to forget you
You gave color to my life
Though I know the time is not right

I told myself to stay away from you
But I can't teach my heart not to love you
This feeling I had for you keeps growing
A reason for me to be afraid of what this could bring

My mind always telling me to let you go
But my heart is always saying 'I Love You'
This heart really rules my mind
And that is why I can't stop this feeling inside

Asking God to help me to decide
Which one will I follow Heart or Mind?
God has purpose to what I feel
For He only knows about what is real

One thing in common between my heart and mind
Is that they're both saying what is right
My mind is right and so with my heart
But one thing is for sure, You are a part of my Life.

I Wrote

I wrote my name in the clouds,
But the wind blew it away.
I wrote your name in the sand,
But the water washed it away.
I wrote your name in my heart,
And forever it will stay.
Until the day came,
And you ripped it away.

You broke my heart in two
all bloody and blue
from a cold hearted person like you.

My heart is trying to heal,
But it can't on its own,
Because I need you to fix it.

I miss your gentle touch,
And your soft kiss,
Your smile can make me smile.
And your voice is so soothing,
Not hearing it makes me go crazy.

Just you all together,
There is no line of words....
That can explain how I feel about you.
Sometimes the moments feel right,
And want them to last forever.

The way I look at you has changed...
You broke my heart once
Then you did it again....
I can't trust certain people now....
Because of you.....

Not wanting you to leave,
But I'm moving on but very slowly....
I have to hide the fact that I love you
From so many different people...

But I can't handle not telling you.

I look at you different...

But I love you the same

Sadly but true...

And I can't be without you....

Wanting to tell you

How I feel....

But finding it hard to breathe

Around you....

You take my breath away when I'm around you...

You sweep me right off my feet.

My heart skips a beat....

When I feel you against me....

When you're in my arms...

Its Time

It makes me wonder if this was ever meant to be
How could she want that guy and forget about me
She says that he could be the one
But everyone knows she will be hurt when it is done
How could she give up on something so true
Now I sit here and tell myself I can get through
My whole heart still yearns for her
Her love and touch is what I prefer
But that is all gone now
I must move on, but how
Forget about her face, her smile
Allow my feelings to go from love to hostile
It kills me to watch her go
But I can't take being on this depressed plateau
It's time to climb up to the peak
No more sitting around and being weak
I can get over her...
I can get over her.....

Just Let Go

We had a lot of fun
When we were together
I'll never forget
I'll always remember

The laughs that we shared
The dreams that we had
But those dreams changed
And they left me sad

I know you've moved on
And found someone new
But I have to admit
I still wish for you

This isn't healthy for me
I really need to stop
When I think about our past
My heart wants to pop

So as I say my last goodbye
I want you to know
That I'm trying my best
To learn to just let go

Life

Life is full of surprises and shocks
while we are planning and deciding
our next move,
our course of action
It moves in opposite direction,
without warning
while we spend a lifetime,
thinking and planning
about our future,
our loved ones
It takes a step further beyond our thinking
everything about life is always uncertain
the only thing constant thing about it is
it is always moving
so keep moving,
keep smiling always

Sanju Roy

Lost

The darkness surrounds me
It's getting so cold
I'm all alone
With no one to hold

My world is so empty
All what's left is pain
No sunshine to light my way
Just never ending rain

I drown in tears
My heart is crying
No one seems to notice
My soul is dying

Lost Love

The most amazing moment was when we met
The love and time I have shared with you
have all been without regret...
In spite of our love...
I am painfully aware
That you are gone,
And no longer there..
You made up your mind and you went away...
as things started to not feel right...
I know it's pointless to wish for you to stay...
because at the end of the tunnel there is no more light
Often I don't know what to say or do..
So many times I have cried over you...
Emptiness and sorrow is now a part of me,
Since I have to accept that we will never be..
BUT
Our memories continue to live in my heart
As I wish you well with your brand-new start
Please, believe me when I say
You will always be with me
Come what may

Magical Sunset

As the day ends to rest
The sunset does its best
Setting on fire the lively waves
Colouring orange the nature he saves
its pure ancient glorious perfection.

The great ocean will receive
The burning sun who's going to leave.
Slowly comes the night
Devouring that magic light:
we are still suspended in a great delight.

My Love For You

I love you with my heart
I love you with my soul
I know you don't believe in me
but trust me for I know
my love is deep
my love is true
and it will never fade
so tell me now
and tell me true
DO YOU LOVE ME TOO?

Sanju Roy

My Mask

My smile hides my tears.
My laugh hides my screams.
It's been this way for years.
Things aren't as they seem.
I always seem so happy.
With not a care in the world.
But you should know sadly,
Many things go untold.
Nobody really knows me.
They only know my cover.
But I wish I could let it free.
Let them know what's under.
But instead I practice
My smiles in the mirror.
Then the next thing I do is
Make my fake laugh clearer.
What is wrong? You need help?
Is all they will ask.
So I have decided
To live behind a mask.

My Mistake

My Mistake

I admit I made a mistake
Over stepping some boundaries
which made me look fake.

I always said I would never do the things I did,
and that is the reason it is so hard for you to forgive.

It's been so long,
so many times we said we'd try
only to turn around
and make each other cry

Remember how it was when we first started out,
So much alike, we shared every thought
We fell so fast, maybe fell in love too soon
Made a huge decision that now we cannot undo.

I admit my mistakes but can you admit yours,
I have paid for what I've done
as you have paid for yours,
so why is it like this,
we can't even talk.
You call me liar and say you don't care
All the while my love for you is still there

I never meant to hurt you,
never wanted to cause you any pain
Since you left me 1 months ago
My life hasn't been the same.

I owe you so much,
I have so much to prove to you,
So I will end this with the hardest thing I'll ever have to do,
Goodbye baby...I will always be in love with you.

My Promise To You

I promise to always lift you up
When you are feeling down
I promise to wipe your tears
When you feel you need to cry
I promise to keep you smiling
To show off that beautiful smile you have
I promise to be your strength
Whenever you fall weak
I promise to be your voice,
When you can't find the words
I promise to be your eyes
When you cannot see
I promise to be your ears
When you cannot hear
I promise to always tell you what's real
When you want to hear the truth
I promise to be your dream catcher
To chase away you're every fear
I promise to be your smile
When you're frowning
I promise to always cheer you up
When you are down and blue
I promise to give you faith
When you are feeling insecure
I promise to keep you sturdy
When you are feeling unsafe
I promise to listen
When you need to talk
I promise to tell you no lies
Just what is true
I promise to always lend you my shoulder
For when you need to cry
I promise to always hold you
When you need someone
I promise to always care for you
Wherever you are I promise to always be there
I promise to never hurt you and never break your heart
I can't promise you the world
I can't promise you the sky

I can't promise you that we will never fight
I can't promise you that I will never cry
But I can promise you that I will always be true to you
And baby I promise that I will always love you more than anything with all my
heart, no matter what happens or what we go through, baby I'll love you until
the end of time!
Ill be your guardian angel
That's my promise to you! !

My True Love

I have a feeling
That I can comprehend
In my deepest thoughts you are
More than just a friend.

I wouldn't want to
Rush us now
As love we explore
But there's a growing love inside
That we just can't ignore.

I love the times we
Spend together. We are comfortable
And free. I think of you when we are
Alone. I think of you and me.

We have a share
Secrets to uncover. There's more
To life then we will both discover.
I love you always.

I'll love you when you're dumb,
I'll love you when you're smart,
I'll love you anyway you are,
Right from the start.

I'll love you if you're tall
I'll love you if you're short,
I'll love you if you're pretty,
Or just an ugly dork.

I'll love you if you're toothless,
I'll love you if you're blind,
Anything that's wrong with you,
To me you'll be fine.

My heart is opening up now,
Unlike it used to do,
I see the pain that's in your heart

And sometimes I feel it to.

I'll love you tomorrow,
I'll love you today,
I'll love you forever,
And forever always.

Stand Strong

When things seem difficult miserable
Life is turning away from you
Intimidated and worn out you remain
In darkness at a corner you examine
Watching the sky as it disappears
Reminding the lost beloved ones
How beautiful and caring they were
Vanishing without saying goodbye
Shortening your long life span
And leaving you destitute and lonely
Deeply you wonder
How life can really be unfair
To honest and good people like you
But all you let go off
And focus to mend your life
And strengthen your heart
With good and caring friends on your side
Opening the picture of brightness
Knowing GOD holds your hand
Leading you to your success
Stars embracing the whole sky
And you know your journey has started
In pursuit of your purpose
Slowly matching from dusk to dawn
With smiles and determination
In whispers you read your heart
ALWAYS STAND STRONG

Sanju Roy

Take My Hand

Take my hand and lead the way,
Pour out all your deeper thoughts,
Let your soft voice whisper swiftly into my ear,
All these lovely things I want to hear.

Kiss my lips and touch my skin,
Invoke my adrenalin,
And bring out passion deep within,
Draw me near and hold me tight.

Throw away all my sorrows and mourning,
In to the thick darkness of the night,
Claim back the long lost smile,
Back into my face at early dawn,

I've been in this custody for years,
Break the walls and enter my heart.
Untie the chains,
Hold my hand and let me out.

Release my soul held deep within...
I'm ready now;
Take my hand,
And let love begin!

That's Life

This life is a wonderful gift.. accept it, embrace it.
It starts with a new day.. wake up and greet it.
Life is a challenge.. take it head on, and meet it.
Full of opportunity.. use it, don't waste it.

This life is a mystery.. unfold it, solve it.
It starts with meaning.. wake up and understand it.
Life is a goal.. take it head on, and achieve it.
Full of promise.. fulfill it, but keep it.

This life is a tragedy.. face it, accept it.
It starts with pain.. wake up and help numb it.
Life is a struggle.. take it head on and fight it.
Full of sorrow.. sorry, just overcome it.

This life is precious.. hold it, treasure it,
It starts with hope.. wake up and feel it.
Life is a choice.. take it head on, and make it.
full of knowledge.. use it, don't abuse it.

This life is adventurous.. enjoy it, explore it.
It starts with a duty.. wake up and perform it.
Life is love.. take it full on, and love it.
Full of beauty.. praise it, and behold it.

That life is life.. live it, learn and grow
Life is good.. be good with all that you know.

The Heart In My Hand

If you said you were cold
I would wrap my arms around you.
If you said you were thirsty
I would give you the ocean blue.
I would give you anything: the moon, the stars, the sunset too.
This heart in my hands I hold out to you.

To Live And Love

We were put on this planet
To live and to love.
To cherish the ones in our lives.
And never let them get hurt.....
Safety is a priority
But danger is an outcome.
Why is it, that we work so very hard?
For something that will still happen
in the end.....
Should we care about our lives,
Or sit and waste it away.
'It doesn't matter, were all going to
die someday! '
These words fill our heads
With sad confusion. There's no end
We get lost with the love
We want to have.
There is no conclusion to all
this pain.
But an answer that comes
Just the same.
The negative side seems to win,
But the positive side seems to
Glow.
We are who we choose to be,
So be careful who you choose.
Love everyday like there is no
Tomorrow....
And give to others the joy of life
So no one will hurt.
Love, And love will love you back.
Open your arms to life
And life will hug you back!
Don't be scared!
Life is still a one time thing!

To You From Me

My mind is longing for love,
A love my heart just found.
Words will not describe!
The emotions I feel inside.
When we are together,
I need to hold you close.
Heart to mind, or lips to lips.
I love your smile, your sexy charm,
Your valiant walk, your long flowing hair,
All these things sets alarm.
To each day I walk alone,
No one can fill my heart... your home.
I think about you all damn day,
But mostly when I lie awake.
I never dreamt much in the past,
Now I do and it's for you.
I will stand by your side,
Through thick and all,
To see that gorgeous smile,
That always makes me fall.
When you think you have nothing left,
I SWEAR to you, I'll be left.
Your gentle lips and your beautiful glow,
An angel I have, from head to toe.
I know these words, my heart has shown,
To you I vow these words alone.
Love,
Me

When I Am With Her

When I am without her, the sun doesn't shine as brightly.

When I am without her, the clouds are dark and foreboding.

When I am without her, the birds don't sing as sweetly.

When I am without her, the walls close in on me.

When I am without her, in the depths of my hell, whispering her name sustains me.

But, when I am with her, she lifts me up.

When I am with her, I have the strength to move mountains.

When I am with her, I can withstand anything.

When I am with her, her smile warms my very soul.

When I am with her, the angels sing her name.

When I am with her, I fall in love all over again.

Sanju Roy

You

As I lie in my bed,
Your name's running through my head.
All I can think of is you
And all that you do.
The way you look at me.
I feel as if I'm in a dream.
The blue sky
Reminds me of your eyes
Which gives me butterflies.
You have brightened my life
With that beautiful smile.
No longer are my days a trial.
Your touch is like heaven,
Upon my young skin.
If only you knew
That what I say is true
I would do anything just to be with you.
Hand to hand, palm to palm
Just hold me in your arms,
I love you with all my heart
'Till the very day it falls apart.
I may be young,
But my heart is strong.
I know what love is
It's my name and his.
You make all the problems float away
No matter how was my day.
I love our heart to heart chats
When our beats connect,
And when my head starts to fade back
From when the blue sky
Turns sacred black.

You Need To Know

I need to know
If something is
Going to happen
Between us
You need to know
That I want to know
You for the rest of my life
I want you in my life
Even if we don't work out

I want you to know
That you are
My best-friend
That you're my equal
That you're my passion
That you're my life
That you're my happiness

I need you to know
That I need you
That I want you

I need you to know
That I care about you
So, even though I've only known you
For a small time
Everything I say is true
And I hope you
Can believe it
