up high,
in the sky,

Exploring Wrecks

swim with me through the shipwreck
see the jewels in the treasure chest
and the coins are very old
see the silve and gold,

this is the room where the sailors sat
and the games that sailors played
this is the place where the captin ate
and the room where the captin stayed,

this is a pan that the ship's cook used
by the light of the silvery moon
these are the letters which the captin wrote
a cup and a silvery spoon.

Great Inventions

who invented the ice cream
who designed the bicycle
and planes and trains and cars?
sweets and chocolet bars?

who discovered holidays
who invented DVD's
and visits the sea?
and programs on TV?

who built all the hospitals
the shops and all the schools?
because i'd like to say thank you!
who did all these things?

I Didn'T Mean To

i didn't mean to brake the chair,
or or made a mess fixing it.

i didn't mean to scare gran,
or pull her chair away.

i didn't mean to not feed the cat,
or let her die along.

i didn't mean to touch the knife,
and cut my little finger.

but every one make mistakes.

April, June and November,
All the rest have 31,

Mouse

i saw a house,
made of cheese and mouse,
inside it a cat,
but he is not wearing his hat,
his face were on the back,
he turned around,
looked at me,
his face were like a mouse,
his name is jerry,
written on the back of his body.

My Teacher Ate My Homework

my teacher ate my homework,
which i thought was rather odd.
he sniffed at it and smiled,
and gave a thoughtful chew.

I think he must have liked it,
for he really went to town.
He licked off all his fingers,
gave a burp and said, 'You pass.'
I guess that's how they grade you
when you're in a cooking class.

We've Been Travelling

we've been travelling
we've seen the clouds and felt the sun
we've flown in a plane and had lots fun
across the sky,

We've been travelling
we've felt the wind and seen the waves
we've sailed in a boat and looked for old caves
across the sea,

We've been travelling
we've seen the fields and touched the snow
we've ridden in trains, some fast and some slow
across the hills.
