# Confusion Love Is

I loved him,  
He love me not?  
I though so,  
Untrue it was I still hid my feelings,  
In a place so dark,  
I turn him down and in return I get pain,  
My heart pours to him,  
I want so bad to be with him,  
I get what I want,  
But with this I just get denial,  
How could he love me?  
I'm getting tricked!  
How stupid I am..  
But my head was wrong.  
Unconditional love he had,  
I'm finally ready to accept it.

# Death Is Worse In Black & White

Like An Old Picture,  
She Lays On The Bed,  
Dying,  
In Black & White,  
Black, White & Red,  
Her Blood,  
On The Walls,  
On The Bed,  
On Me As I Hold Her & Beg her Forgiveness,  
She Speaks Her Final Words,  
'I Forgive You',  
I Start To Cry,  
Why Did I Do This,  
Why,  
I Love Her,  
So I Take The Knife,  
And Race To Be With Her...

# Emo

Turn Up The Music,  
To Drown You Out,  
I Cry As I Pull Out The Razor,  
To Fuel My Addiction,  
That Gives Me Relief,  
That One Sweet Moment Of Relief,  
When I Move The Razor Across My Wrist,  
And My Pale Skin Turns Bright Red,  
But Now The Pain Is Back,  
I Turn The Music Up More,  
More,  
More,  
So You Can't Hear Me Scream.....

## Emo(A Suicide, Love, & Sad Poem)

I Loved Her,  
But Then She Cut Too Deep,  
And Then She Was Fighting For Her Life,  
She Lost,  
Now I Don't Wanna Be With Anyone Else,  
Only Her,  
So I Plan Just One More Week,  
Then We'll Be Together Forever,  
Me And My Love,  
How Stupid She Was,  
I Don't Want To Go So Early,  
But She Is My Life,  
I'm Coming Baby.

# Famous Last Words

There You Are,  
Laying Next To Me,  
Choking,  
On Your Blood,  
You Try To Speak,  
But I Stop You With A Kiss,  
'Goodbye' I Whisper,  
But She's Already Gone,  
My Words Are Useless,  
Her Body,  
Lays Lifeless,  
I Stare Into Her Eyes,  
My Last Look,  
As i walk away forever...

# Headfirst For Halos

I Wake Up In The Morning,  
And I Think I'll Blow My Brains Into the Ceiling,  
Then When The Fragments Of My Skull Begins To Fall,  
It Falls On Your Tounge,  
Like Pixie Dust,  
Just Think Happy Thoughts,  
And We'll Fly Home.

# Life Ends In Death. Always.

i just cry,  
just because,  
life means nothing,  
cause you know it ends in death,  
why try to live,  
they say live life to the fullest,  
yeah right,  
how can you if you know your gonna die,  
cutting,  
crying,  
music,  
poems,  
they do nothing,  
life just makes you wanna cry,  
listen to music,  
cut,  
write a poem,  
just to cover up what you know,  
your gonna die,  
soon,  
so go cover death up,  
but the sand in the hourglass is almost gone,  
tick tock,  
tick tock,  
time to die...

# Mommy.

Mommy please,  
Mommy don't,  
Put it down!  
Leave daddy alone!  
Can't you see my tears,  
Your tears,  
Dads tears,  
You got addicted,  
Left me alone,  
You were there,  
But I was really just alone,  
Running and hiding,  
Cause you had got out your bat,  
Aiming for affliction,  
Upon me.  
Mommy.  
Please stop hitting us,  
Stop making us cry,  
Mommy come home.

# Moon Of Death

It Shines Dimly In The Night,  
Just Enough To See That There Is Nothing To See,  
Just Her Lips To Mine,  
And My Knife,  
Clutched Behind Her Back,  
In My Hand,  
Ready To End It All,  
Just One Move And I Can Forget Her,  
Just One,  
I Bring My Knife Back,  
Ready To Puncture Her Heart,  
The Heart I Am About To Break,  
Then She Screams,  
But Only For A Second,  
Then I Whisper In Her Ear,  
'It Will Be Over Soon',  
As Tears Come Down Her Face,  
Blood Out Of Her Chest,  
All Over Me,  
Then,  
I'm Crying Too,  
Why Did I Do This,  
She Was My Only Love,  
And I Killed Her,  
In The Dim Moonlight.....

# Sophisticated Darkness

You left me alone,  
Alone,  
And so cold,  
You left me there in the trash,  
To be taken to a place where unwanted things go,  
You didnt love me mommy?  
You did want to raise me?  
Feed me?  
Please have a heart,  
Dont leave me here to rot,  
And die,  
In this dumpster,  
If you dont believe in abortion then what is this?  
Mommy,  
Ill forgive you,  
Take me to a orphanage,  
Just please mommy!  
Im crying,  
And niether you,  
Or anyone walking around wants to hear me,  
So just remember mommy,  
You left me alone in the darkness.

# Sunshine

I wake up at noon, Only to see.....

Sunshine

I Stay inside all day to get away from.....

Into the sunshine.....

# The End

The Crowd's Clapping,  
The Curtains Closing,  
The Show Was Short,  
But Fun,  
But Now Your Show Is Over,  
The Tickets Were Sold Out,  
It Was And Is The Final Show,  
The Spectacular,  
Titled 'Your Life',  
Yes Your Ending,  
Just A The End,  
No 'You'll Live Eternally In Our Hearts',  
Just A The End,  
No Big Bold Underlined Title,  
Just,  
The End.

Trenton Davis

# To Fly Without Feeling

Open Your Wings,  
And Fly Away,  
To The Top Of The Mountain,  
Where Many Try To Climb But Fall All The Way Down To Hell,  
But You Can Fly,  
Like An Angel,  
Of Death,  
The One Person Who Can't Die,  
But You Have Died,  
On The Inside,  
Your Soul Burned,  
Like All The People That Failed To Climb The Mountain,  
Hell Burned You,  
And Left Your Empty Shell To Wander The World.

# Vampires Arn'T Supposed To Be Nice

They Kill.....  
In The Night They Come Out.....  
To Drain Us Dry.....  
We Fight Back.....  
But We Are No Match For Them.....  
Them And Their Strength And Senses.....  
Hundreds Losts.....  
None Saved.....  
Millions Created.....  
An Army.....  
With A Big Appetite.....  
We're Helpless.....  
Why Try.....  
Just Face Your FATE.....

Trenton Davis

# When The Sun Turns Black

Your Souls In Burned Inside You,  
Your Family Cries,  
Your About To Die,  
Your Heart Just Pumps Poison Throught Your Veins,  
You Fall Down,  
Without A Sound,  
Then You Cry,  
Into Your Final Sleep,  
The World Turns Dark,  
One Final Day,  
The World Spins Slowly Towards The End,  
Your End,  
Our End,  
The Worlds End,  
When The Sun Turns Black.....

Trenton Davis

# Why Can'T I Sleep?

i lay there,  
tired,  
but my mind's racing.  
so fast,  
that i can't even think of sleep,  
thinking of all the bad in the world,  
all that makes me depressed,  
all the make me wanna put out the blade,  
cut till i cry,  
play my chem till i feel like cutting more,  
jump out the window,  
'hopefully i'll die this time',  
'or maybe next time',  
grab a gun,  
make it go 'boom',  
as the fragments of my skull begin to fall,  
my mom screams,  
at the top of her lungs,  
but i cant care cause im no more.

Trenton Davis

# Why Did You Die?

The pain is unbearable,  
I just miss you,  
Even though i know your gone,  
I just can't grasp it,  
Cause we were ment for each other,  
I never knew how bad you were depressed,  
I couldve helped,  
But you kept it to yourself,  
I wish you hadnt,  
Cause now i cant sleep,  
All because you hung yourself.

Trenton Davis

# Why Did You Have To Go

Why Did You Leave Me,  
My Soul Ripped In Two,  
My Heart Bearly Beats,  
Now That You Eternally Rest,  
In The Ground,  
Why Did You Have To Go.....

Trenton Davis

# Will You Come Die With Me? I Might Get Lonely...

come save me from here,  
i need you to help me through this,  
'i'm on my way',  
'please hurry i can't take it much longer',  
but she never showed,  
my soul grew darker,  
as the sun went down,  
so did my hopes and dreams,  
my love left me here,  
to suffer and die all alone,  
now i need my vengence against him,  
but i am to weak from all this pain,  
so i just lie here,  
and waste away slowly,  
but then he comes,  
to save me,  
right? ,  
no cause he bares a knife,  
this is the end for me,  
such sorrow,  
then he stabs himself to leave me all alone.

Trenton Davis

# You Cant Fix Me, Im Broken...

i dont understand how lungs are able to work with a broken heart,  
how i can still fly with my broken wings,  
after being broken so many times,  
my paper heart cant stand much more hurt,  
i can feel the pain within my chest,  
pain with every beat,  
i dont have just a little broken heart,  
or a terrible heartache,  
its much more then that,  
its my fault i loved them too much,  
when they didnt love me at all,  
my tears are dried up,  
from all the long nights of sobbing,  
noone wants to save me,  
im just gonna die here,  
all alone.

Trenton Davis

# You Don'T Know Me

You Don't Know How I Feel,  
Alone,  
Depressed,  
Forgotten,  
They Think They're Helping,  
But They're Sending Me Farther Into The Black Hole,  
But It's Fine Down Here,  
I Can Be Myself,  
I Don't Have To Fake A Smile Just To Stay,  
I Can Cut,  
Without Having To Hide,  
It's Nice Here,  
For Now.
