Vinayak Pandey(8 may 1995)

He is a boy who wants to become an actor. He likes to read books and write poems and stories. He is a very interesting person...!

A Tree

one day from my window,
i saw a tree
never shedding its leaves and
throughout the year green.
then i thought to make a tree house,
and we're free, as much we shout.
but one day... it started raining
and then i got to know what's its name is.
after that, i started singing- "its raining and raining" and
so on...
it was named tropical rain forest, yes at all.
and then my life emerged once again
and i started writing poems to gain fame...! !

Be Healthy

You should eat healthy
and be healthy.

Instead of having juice,
have fruits.

Instead of having junk,
have some green fun.

So, stay healthy

by eating green

and advise others also the same green fun

you should eat healthy

and be healthy! ! !

Friends

Making friends is not
as simple
because foes also acts
like a friend.

Friend is someone
who stays
with us in our
grief,
and figure it out in
brief.

But sometimes there
grows a
mess,
whom with we are
a new guest!
But friends know
how to solve it
and become
friends forever.

So make a person
your friend
who can take the
appportunity.
Not to flatter
thee in every
moment of
life.

When a friend
sometimes
flatters,
then he is not
a friend,
then he can take the
title of a foe
or a flatter.

So keep in mind
all the
qualities of a friend
and BEST OF LUCK

with that! !

My Sweet Home

My home is a
sweet home
i like it and
everyone
will also like it.
A home is not a
place where we
only live
the family members
gather together
and make it a
home of love
to live in it.
Your home should be
sweet,
and i know it is
but a sweet home
is not a place to
live,
but a place filled
with love
to share with! !

Nature

I love those flower
i love those leaves
dancing in my city street.

But now a days
they are not seen with
grace.

They are a little sad
as no one cares
so because they are the green lungs of the nature that purify the air
forests are our lifeline
it is through them that nature shines.

But someone don't like them
for their colour and their fame,
but i love nature
and you will also
when they will help you
and you will cry
for what
you did!

Rainbow 'N' Nature

Rainbow is the hue that light,
like the fire which is bright.
the limpid hue makes it shine
the tranquil nature always mine.
people or the radiant world
no one knows nature's worth.
Nature is the only thing
by which you can live.
No one knows when this world will end
so think when people will mend! !
