A Bird Without Her Wings (Haiku)

Bird without her wings
Cannot escape all this pain
She's left to suffer

Yasmin Khodaie

A December Night

On one cold December night,
And the moon is high in the sky,
While everything's lit up by a supernatural light,
Where no one passes by,

There stands a gloomy castle,
Where she drew her last breath,
Her life was too much of a hassle,
So she followed it by death,

So after her death they closed it down,
And left everything to rust,
They had only left her wedding gown,
Her life was ashes to ashes and dust to dust,

So she lived and so she died,
She was never able to be a perfect bride

Blue

Blue is what you feel when you are feeling down,
Blue is the sky on a summer's day,
Blue is the sea and the oceans
Blue is the waves that crash against the rocks,
Blue is the ice and the cold of winter
Blue is a tear rolling down your cheek,
Blue is what I feel.

Bullying

Have you ever been bullied before?
Do you know how much it can hurt you?
Tell them to stop, but they do it some more,
And then it leaves you feeling blue,

They call you names like 'freak' and 'emo',
They punch, slap, scratch and kick,
You beg them to stop but they laugh and say no,
And still they continue to take the mick,

But now you're tired and running out of steam,
And you feel like your world is caving in,
You feel like you want to scream and scream,
You feel like you can never win,

The whole worlds against you and no ones your friend,
Your heart now black with sorrow and pain,
You just want all this pain to end,
Cause all this pain and madness is driving you insane,

You want to get a knife, a rope or a pill,
You let out a deep depressing sigh,
Maybe if things get worse you really will,
Cause right now the only way to escape is to die,

(BULLYING MUST STOP)

Could Not Win (Haiku)

I tried to fight it
But the cold wind was stronger
And I could not win

Cry No More (Haiku)

When life gets me down
I always cry my heart out,
Then I cry no more

Dark Red Rose

On the ground lay a dark red rose,
With petals of dark blood red,
The story of her, no one knows,
For years it has not been said,

One time she had stood proud and tall,
And she had a purpose in life,
But now she lays withered and small,
She has suffered pain and strife,

She had given a rose to her love,
Because of her he was a part,
She was sure he had been sent from above,
With his kind, angelic heart,

He said their love would last forever,
And together they would stay,
But then his life began to wither,
And death got in their way,

Her tears and sadness became the petals,
Her anger became the thorns,
Her heart became hard like the hardest metals,
And for eternity she mourns,

On the ground lay a dark red rose,
With petals of dark blood red,
And her painfully hard secret you now know,
For to you I have just said,

False Hope (Haiku)

Look up to the moon
Searching for a little hope
That was never found

Yasmin Khodaie

Forget Her Hugs And Sweet Embrace

Forget her laugh and her smile,
And try and forget her for a while,
Lift up your chin and try be strong,
You have been feeling down for so long,
Just let go what happened in the past,
And just because it didn't last,
You need to forget all that was,
I am only telling you this because,
You are my friend
And true friends stay till the end
So forget her laugh and smiling face
Forget her hugs and sweet embrace
Just remember that one of these days,
You will find some one who's like you in all ways
So life your chin and be strong,
You will soon forget her before too long,

Yasmin Khodaie

Forgotten (Haiku)

Sitting here alone
Crying in the corner
Feeling forgotten

How Much I Loved You

The chilly, bitter night air,
And out of the window I stare,
I feel so cold and numb,
As I look at this world that's so sad and glum.
As the sky becomes dark and cloudy,
I remembered what you said to me,
Then as a storm draws nearer,
I only wish that things could be clearer
You said that you would always be there,
But now I know that life's not fair,
And now I know I really need you
And you leaving us has left me feeling blue,
As lightening rips through the air,
Showing the landscape, cold and bare,
As rain crashes to the hard floor,
I wonder if I can take it with out you any more,
I wonder if you're happier up in heaven above,
I wonder if you will be shown love,
I wonder if you ever knew,
How much I loved you.
One day, if I join you there,
The rest of eternity we will share.

In The Dark

As I lay here in the dark,
With no where for me to turn,
I lay against a trees cold bark,
Saying to myself, 'next time I will learn',

I should have known right from the start,
That it was too good to be true,
Because at the end you broke my heart,
It cracked and snapped in two,

You told me that I was the only one,
You told me that you cared,
You said in your heart I'll always belong,
This was the love we once shared,

All the pain that I feel,
I can't bare to explain,
I don't think you would find it a big deal,
But it's driving me insane,

As I lay here in the dark,
With only you in my head,
I lay against a trees cold bark,
When you find me I will officially be dead

Yasmin Khodaie

Just Smile

You seem to act so depressed
Like you couldn't care anymore,
I don't know wither its cause you're stressed,
Or if you are just unsure,

Unsure of what you think
Unsure of what's to come
Unsure of believe
Or wither you think you belong

But you have to try your best,
Even if it takes a while
Don't think about the rest
Just be happy and smile

Yasmin Khodaie

Lost (Haiku)

Tears of sadness
Rolling slowly down your cheek
Feeling lost inside

Yasmin Khodaie

Magic (Haiku)

A little magic
And a little bit of faith
Put your trust in me

Yasmin Khodaie

Maybe

Maybe you never loved me,
Maybe you never cared,
Maybe you never truly felt,
The love that we once shared,
You told me I was pretty,
You told me I was fit,
You said you'd always love me,
You're such a lying git,
Somehow I fell in love,
With you all the same,
Somehow I felt special,
By the way you spoke my name,
You were the only one,
My only shining light,
You were the light of day,
In an otherwise darkened night,
I would have done anything for you,
Just to keep you with me,
For you I would have changed the world,
But our love wasn't meant to be,
As stupid as I was,
I just completely let you in,
I just loved everything about you,
Your kiss, your laugh, your grin,
I believed everything you told me,
Even though it was just a lie,
I would have kept on believing,
Until the day I die,
It's so hard to believe,
That all that was is now gone,
And that we're now drifting apart,
Where did it all go wrong?
Even now you don't care,
How much tears or blood I shed,
As the pain slices deep into my wrists,
The words you spoke echo in my head,
I remember all those times,
When I didn't want to let you go,
And while I layed there in your arms,

You'd say I really love you you know,
But my mind has turned to ice,
My heart has turned to stone,
I etched me sadness into my skin,
And i'm cold right to the bone,
And now when i'm next to you,
I would love to hear you say,
'Yasmin, I've always loved you',
'I wish I didnt push you away',
But soon I'll have to make a choice,
Either to stay or to leave,
Sometimes I just want to die,
But what would that achieve?
I'd like to think you'd miss me,
But you'd probably be glad I'm gone,
And after a moment you would forget,
And then you would move on.

My Eyes (Haiku)

Come into my world
See some things that I see them
See them through my eyes

My Love (Haiku)

When we were in love
I never thought that it would end
We were meant to be

Yasmin Khodaie

My Love Sonnet

Shall I compare thee to a summer to a summer's night?
While the moon in the sky glistens and shines,
My love for you flies like a bird in flight,
My love is hidden in between these lines,
The love that I feel you might not know,
But my love for you grows like a red rose,
And this is the love that I'll always show,
My love that I feel always, always grows,
Our love is an over whelming power,
Our love is like the sweetest melody,
Our love will last through sun and through shower,
Soon we'll be joined in holy matrimony,
The love that I feel for you will never die,
And then if it does I will surely cry.

Yasmin Khodaie

My Promise (Hiaku)

Where ever I am
I will never forget you
That is a promise

Yasmin Khodaie

Never Enough (Haiku)

It's never enough
To just say that your sorry
You have to mean it

Yasmin Khodaie

On A Mountain Cold And Bare

On a mountain cold and bare,
There I sit, outwards I stare,
I stare at the world around,
And if you listen, you can hear every sound,
You can hear a desperate plead,
From the people who are in need,
You can hear the children that are crying,
Because their parents are dying,
You can hear the sound of people run,
With their air riffles and a Tommy gun,
You can hear them pierce through the air,
All from this mountain cold and bare,

Yasmin Khodaie

Patience (Haiku)

Learn to be patient
Years can pass like seconds
Don't wish life away

Yasmin Khodaie

Queen Of Darkness (Haiku)

The queen of darkness
She walks alone in this night
This night of sorrow

Yasmin Khodaie

Sadness (Haiku)

A little sadness
Fills us up with emotions
We try to hid them

Yasmin Khodaie

Some Day Soon

Some day soon, some day soon,
Some day soon,
I will forget about you,
And all you did,
And all you said,
And all the pain u caused me,
I'll soon forget,
Some day soon,

It was a Friday night,
And everything was going all right,
Until you showed up at my door,
And scarred my heart once more,
You brought up the past,
And said we should have been able to last
But guess what, you've never been more wrong,
You and I don't belong,
Together,

I saw you just yesterday,
And I couldn't think of what to say,
You were with your new girl friend,
Laughing and smiling like your love would never end,
But I only know to well,
That when there's some one else she'll go through hell,
And then you will leave,
And she, for you will grieve,
She will be left to forget about you,
Some day soon,

Souls Of Angels (Haiku)

Dark souls of angels
Wanting to be wild and free
A new beginning

Yasmin Khodaie

That Stupid Gun

It starts off as just some fun,
Until someone like you pulls out a gun,
Or maybe you pull out a knife,
And try to end someone's life,
As they lie there, dead on the ground,
And then your heart begins too pound,
Then you say, 'What have I done? '
'Why did I ever pull out that stupid gun? '
'Why did I do it? It isn't right'
Then here comes the red and blue light,
They take you down to a prison cell,
And you feel like your now in hell,
Then your sentence is life in jail,
You have to spend your life behind a rail,
It started off as a bit of fun,
Until you pulled out that stupid gun.

(More children each year are being killed in gun and knife attacks, this needs to stop!)

The Good Times And The Bad

I stand in the snow
In the wind and the rain
I watch seasons come and go
I see all the worlds' pain
I see the good times and the bad
I see the miracles of life
I see things that make me sad
Like deaths that are caused by a knife
As I stand here in the snow
As I stand in the wind and the rain
I'm wishing that badness and hate will go
And that only good things will remain,

Yasmin Khodaie

Tomorrow (Haiku)

With You (Haiku)

Always be with you
